Both parties have set forth in their briefs their respective readings of the operative contract language, but the fact is that the language in the abstract does not resolve the issue. So I'll address first how the parties have actually implemented the contract in practice over the three-plus decades that it's been in force. You will hear testimony this morning from Morris Claffee, payroll manager of The New York Times.

Page 6 Page 7 1 1 **ARBITRATION ARBITRATION** 2 2 in connection with Pension Fund aggregates wages paid and makes pension 3 3 contributions and that it neither contributions on a percentage of that. 4 4 calculates nor reports shifts in Mr. Claffee will also provide 5 5 connection with its Pension Fund detailed testimony on how The Times makes 6 6 contributions to the Welfare Fund. contributions. 7 And that practice has been And this is important, 8 8 consistent as far back as anyone can Mr. Arbitrator, because as you know the 9 9 Fund's brief indicates that The Times' recall. 10 10 Mr. Claffee will testify that the practices in connection with Welfare Fund 11 11 contributions supports its position that payroll process at The Times was and is 12 12 to aggregate various categories of wages CBUs equal shifts. 13 13 paid to NMDU union members multiplied by Mr. Claffee will testify that in 14 14 8 percent and pay the resulting amount to connection with the Welfare Fund, 15 15 the Pension Fund. The Times similarly makes contributions 16 16 In light of this practice, primarily based on a percentage of wages 17 The Times in fact routinely makes 17 but also makes supplemental contributions 18 18 contributions to the Pension Fund based on shifts. 19 19 And more specifically the 1981 relating not just to wages paid for 20 actual shifts worked but also to payments 20 collective bargaining agreement, the same 21 21 to employees out on Workers' Comp. and collective bargaining agreement that 22 22 for bereavement pay, holiday pay, created the language at issue here, 23 23 vacation pay, none of which involves contains a provision for Welfare Fund 24 24 shifts being worked. contributions very similar to the pension 25 25 In all these events, The Times provision. Page 8 Page 9 1 1 **ARBITRATION ARBITRATION** 2 And Mr. Claffee will testify that 2 Fund. And Mr. Claffee will testify that 3 3 for these shift-based contributions, The Times treats this Welfare Fund 4 4 The Times indeed reports shifts to the contribution provision just like the Pension Fund provision. It aggregates 5 5 Welfare Fund in contrast to its reporting 6 6 eligible wages paid, multiplies by a practice for pension. 7 7 And these practices we believe are contribution rate and contributes the 8 8 resulting amount to the Welfare Fund. important for at least two reasons: 9 9 But over time, The Times and the First, the Pension Fund has accepted 10 10 The Times' contribution and reporting Union have also agreed to supplemental 11 11 contributions to the Welfare Fund. In practice for years. Pension Fund and 12 12 the late '80s, they agreed to a 47-cent Welfare Fund apparently share the same 13 13 per shift contribution in lieu of a COLA personnel, and it appears that such 14 14 payment to members. personnel took it upon themselves to take 15 15 the shift information that The Times And in another memorandum of 16 16 agreement, The Times and Union agreed provided under the Welfare Fund and 17 17 that employees must make pretax transfer that data to the Pension Fund 18 18 contributions to the Welfare Fund based side of the ledger. 19 19 on a \$3.67 amount per shift. Second, this is important because 20 20 it debunks one of the Fund's key So when the bargaining parties 21 21 wanted to make clear that contributions arguments as to why CBUs equals shifts. 22 22 You will hear testimony that are to be made on a dollar per shift 23 23 basis, they knew how to say it. The Times and the Union also entered into

a memorandum of agreement providing that

the Union could on occasion direct a

They said it in connection with the

supplemental contributions to the Welfare

Page 10

ARBITRATION

portion of Pension Fund contributions to the Welfare Fund, and the Pension Fund argues that this diversion -- they called it reapportionment in the brief -- shows that CBUs equals shifts.

In fact, it demonstrates the opposite.

Indeed, the Union has over time directed that instead of the 8 percent contribution to the Pension Fund, only 6 percent or 6.5 percent would be contributed to pensions and the additional 2 percent or 1.5 percent of wages be paid to the Welfare Fund.

What The Times did on those occasions was add that additional nonshift-based percentage of wages amount to its nonshift-based Welfare Fund contribution.

And thus the diversion protocol between The Times and the Union was consistent with The Times making contributions to both funds on the basis of percentage of wages, not shifts.

ARBITRATION

The Fund also contends that the result of a 2010 payroll audit of the Times affiliate C & S supports its position.

But as you'll see during the course of the hearing, the manner in which the Fund's outside auditor characterized pension contributions is at best for the Fund inconsistent. And more importantly when the auditor explained in his final audit report how he had recalculated the contributions, he said that he multiplied qualifying earnings by the applicable percentage thus directly confirming The Times' own approach.

Page 11

And as for the Pension Fund's own practices, the evidence will show that they can be reasonably and objectively described as inconsistent.

As I mentioned, the Pension Fund has historically consented to The Times practice of not reporting shifts or contributing on behalf of shifts.

And in certain correspondence with

Page 12

ARBITRATION

The Times and other employers, the Fund has characterized the contribution obligation as a percent of wages.

Moreover, and quite importantly, the Fund's own actuary has certified each year for which we can find records that the contribution rate is consistent with our theory a percent of wages.

To be sure, Mr. Arbitrator, after The Times was assessed liability and after it initiated this arbitration, the actuary changed her verbiage.

But obviously a reasonable person would construe the phrase which was previously used "8 percent of wages" as stating a contribution formula based on just that, a percent of wages and not shifts.

The only practice of the Fund in which it has counted shifts as CBUs is prior withdrawal liability assessments. But most of those are roughly 20 years old. We do not know what all the relevant collective bargaining agreements

Page 13

ARBITRATION

said, nor how those affected companies reported their contributions.

And The Times did not know of the construction of CBUs contained in those distant withdraw liability assessments, and indeed where the Pension Fund has been consistent, Mr. Arbitrator, is in conveying to The Times that CBUs were wages.

In that regard and thus in any event, the Fund should be estopped from applying CBUs as shifts retroactively.

You will hear testimony from Terry Hayes, Times senior VP for Labor Relations, that The Times has been sensitive to its withdrawal liability prospects in connection with this Fund and could have taken steps to prevent a partial withdraw had the Fund clearly made known its view CBUs equals shifts.

But the Pension Fund has, even if not intentionally, misled The Times about what constitutes CBUs.

First in 2009 and 2010, The Times

sought estimates of its withdrawal liability and specifically requested CBU information.

ERISA expressly requires that such request be responded to within six months of receipt but both the 2009 and the 2010 requests went unanswered in clear violation of ERISA.

When the Fund finally responded to a third request in mid 2012, the Fund based CBUs not on shifts but on wages earned.

And the Fund repeated this course of action in connection with a fourth New York Times request for an estimate.

On July 18, 2013, less than 60 days before it made the assessment in this case, the Fund sent The Times an estimate of withdrawal liability in which CBUs were again based on wages, not shifts.

So these estimates, when they were provided, are part of what we believe is a consistent pattern of conduct by the Fund indicating to The Times that CBUs

ARBITRATION

are wages.

The Times, as you will hear, was paying close attention to the issue of CBU levels, and had The Times known of the Fund's position it could have and would have undertaken bona fide business practices and conduct to address that contention.

Page 15

Now let me turn to the next issue, second issue, application of the Segal blend.

By employing the Segal blend method, the plan used a discount rate to value Pension Fund liabilities that was lower than the actuaries best estimate of 7.5 percent for the plan's anticipated future investment returns.

And it's that 7.5 percent best estimate that the actuary used for funding purposes.

The Times' position on this issue was simple. Although ERISA might not expressly contain a provision requiring a plan to use the same investment return

Page 16

ARBITRATION

assumption for valuing liabilities for withdrawal liability as it does for funding, the relevant structure of the statutory scheme does indeed legally require it.

And the Supreme Court in the Concrete Pipe case so held.

Moreover, later today you will hear testimony from The Times' actuarial expert Darren French who will testify that under accepted actuarial principles as well.

When an actuary certifies that the anticipated future experience of a pool of assets is 7.5 percent, actuarial principles do not allow that actuary to turn around and hypothesize a different. more conservative set of assets in order to derive a lower discount rate to value liabilities for the withdrawing employer.

And that was precisely one of the many issues that the Supreme Court addressed in Concrete Pipe.

The Court in that case was asked to

Page 17

ARBITRATION

determine whether the withdrawal liability scheme, which allows the fund in the first instance to calculate unfunded vested benefits and then requires the employer to bear the burden of proof in overturning that calculation, satisfies procedural due process.

The Court said that the statute did satisfy due process, but Mr. Arbitrator, a linchpin in that finding was its judgment that actuaries have to use the same assumptions for funding as for withdrawal liability, especially the investment return assumption which, by the way, the Court characterized as, quote, the critical assumption, closed quote, in calculating unfunded vested benefits.

The Court recognized that in the absence of such a constraint actuaries and the multiemployer plans they serve might be pressured to act unfairly toward withdrawing employers. Requiring uniformity in use of the investment

1.5

2.0

Page 18

ARBITRATION

His theory is that because withdrawal liability is static, that is, you know, once determined it never changes --

ARBITRATOR IRVINGS: Two-minute warning.

MR. MILLER: Based on future -because it's static, based on future
investment performance or it never
changes based on future fund
performance, the withdrawing employer
is not affected by actual later
performance.

Kra contends as an economic principle that the value to the withdrawing employer of giving up any future upside performance above a risk-free rate equals the market value of the withdrawing employer being immunized from future downside performance risk, below a risk-free rate.

As an economic matter, there's some logic to Kra's approach, but that's simply not how Congress structured this

ARBITRATION

1.5

2.4

return assumption said the Court, quote, limits the opportunity an actuary might otherwise have to act unfairly downward the withdrawing employer, closed quote.

In the current low interest rate environment, use of the Segal blend impacts The Times withdrawal calculation by more than 33 percent. And such a wide impact demonstrates precisely the act of unfairness to the withdrawing employer that the Supreme Court was concerned about

Now, the Fund for its part intends to use as its expert Dr. Ethan Kra.

Dr. Kra, by the way, believes that the Segal blend method is an incorrect approach to calculating withdrawal liability in that it does not go far enough.

Dr. Kra argues that a so-called risk-free rate, akin to treasury bonds or high-grade corporates, should be used to value the withdrawing employer's share of unfunded vested benefits.

Page 20

Page 21

Page 19

ARBITRATION

scheme and it's not how the Concrete Pipe court interpreted it.

In that regard and finally on Page 25 of the brief, the Fund contends that the reduction in overall contributions caused by The Times and the newspaper industry shrinkage generally makes valuing withdrawal liability at lower rates, at risk-free type rates proper.

It may well be the case that these are causes for concern for this Fund, but if so, the Fund should lower its investment return assumption from 7.5 percent and take less risk.

That will mean higher contributions from remaining contributors and potential tough slog with the Union to negotiate give-ups to allow those higher contributions.

Indeed, it's worth mentioning to you, Mr. Arbitrator, that The Times does remain a contributor to this Fund. After all, it's just a partial withdrawal. So

ARBITRATION

this recommendation therefore also affects The Times' interests.

But what the Fund cannot do is on the one hand estimate to the best of its actuary's ability that its assets will return 7.5 percent over time and on the other say that as to the withdrawing employer whose contributions will be invested just like any other contributor, for you we'll pretend that your liability contributions will be invested more conservatively in the context of the ERISA statute. That's unlawful and threatens due process.

Our third issue will, per our agreement, be taken up in briefing.

Thank you.

ARBITRATOR IRVINGS: Fine.
OPENING STATEMENT BY MR. RICHMAN:

I'm going to take to heart, Mr. Arbitrator, what you told the parties on the telephone, that you had read the briefs, that you expected only very short comments with respect to the issues so

that's what I'm going to stick to.

So what's really interesting about The New York Times' opening is that you didn't hear anything about the language in the collective bargaining agreement, and in fact you didn't hear anything about the language in the collective bargaining agreements. And the reason for that is pretty simple.

The starting point with respect to this analysis is the collective bargaining agreement. It's not the ending point as I'll address, but it is the starting point.

And when you read the language in the collective bargaining agreement. which I'm sure you've read already so I won't repeat it, it makes clear that the contributions are being made per shift for each shift worked.

In a collective bargaining agreement between the Union and City and Suburban Delivery Systems, it's C & S that's referred to in the papers, that

ARBITRATION

contains other language which really brings out the point.

And what it talks about is the wholesaler, which is C & S, shall contribute to the plan on behalf of such apprentice for each plan year thereafter a full shift contribution at the high scale rate, a full shift contribution. That is not the same language as The New York Times contract, but it does focus on shifts.

Page 23

Now, The New York Times has been making this argument about past practice with respect to the Fund and talking about contribution rate.

And we've addressed this in our brief, so I'm not going to go into any detail about this. But the fact of the matter is that a contribution rate is different than a contribution base unit.

And one Court in the Second Circuit has recognized; that's the only Court that I know that has addressed that specific issue.

Page 24

ARBITRATION

The contribution rate is 8 percent of some number. The contribution base unit is shifts.

Now, the language in The Times collective bargaining agreement also talks about contributions being made when an employee becomes eligible for Workers' Compensation benefits.

And you are going to hear testimony from the Fund's auditor, Mitchell Lewis, that the way that worked in practice is because it generally took some time for somebody to qualify for Workers' Compensation that no contributions would be made for that individual, and then when they got Workers' Comp., there would be contributions made for all the shifts missed.

And what is also the case, there is even a document from 2001 written by James Baker, the director of Labor Relations of The New York Times, confirming this practice of contributing to the Pension Fund specifically for

Page 25

ARBITRATION

shifts on behalf of someone entitled to Workers' Compensation.

The fact of the matter is that The New York Times has in fact not been providing the Fund with information with respect to shifts.

It was easy for the Fund office, for the same office who does the Welfare and the Pension contributions, to be able to take the Welfare reports and use that shift information.

The fact of the matter is that, as you will see from the testimony that we're going to offer, that it didn't -the amount contributed can be arrived at two different ways. And the same result occurs whether you talk about 8 percent of wages up to five shifts or whether you talk about 8 percent of shifts compensation, compensation of shifts -in shifts up to five shifts.

Now, what the Fund has done in every single assessment is choose based on not only on the collective bargaining

agreement but its own determination, which it has a right to make, to view contributions being based on shifts. It has had that longstanding practice.

And in all of the audit reports that we will show you, which were shared in fact with the trustees including during the time that Mr. Haves was a trustee as well as his predecessor from The Times, there is language in every audit report that indicates the contribution base unit is shifts.

Nobody from The Times ever raised a question about this issue.

We will also be offering testimony from John Urbank, who is a Segal consultant, and you will see a practice that every time that Segal was asked to do a withdrawal liability assessment or estimate, there was a request from Segal for contribution base unit, i.e., shift information

In the earlier years, that information was provided over and over

ARBITRATION

and over again. And the estimates -- the two estimates for The New York Times, that wasn't provided.

And the Segal actuary, without that information, knowing that what she was doing was an estimate, did an estimate and put a note on the bottom of the page on the schedule that I will agree is cryptic. I don't really know what it means, but she is an actuary and -- but it was an estimate.

And the fact of the matter is that The Times complains about not getting information from the Fund, but they have trustees, a trustee on the Fund.

That trustee went to trustee meetings. That trustee had access to the lawyers. One of the lawyers to the Fund, one of whom was Neal Schelberg who comes from the Proskauer firm. The Proskauer firm also represented The New York Times, sometimes at the same time that Neal Schelberg represented the Fund with both parties representing each other in

Page 28

ARBITRATION connection with the Fund.

It was very simple for Mr. Hayes or anyone else from The Times to reach out to the appropriate parties and get an answer if they really wanted an answer, but apparently they did not.

I'm just going to take the rest of the time to talk about the presumption issue because that was addressed in The Times' brief and it was not addressed in ours.

What The Times does is cite a series of cases and says, uh-huh, the presumption doesn't apply to collective bargaining agreements.

And those cases involved a collection of contributions, contributions, delinquent contributions.

Those are not subject to the provision in ERISA 4221 that provides the standard for determining whether to uphold a withdrawal liability determination. And I won't go into depth about the standard, but the standard

Page 29

Page 27

ARBITRATION

simply is that the presumption is with the Fund, and The Times can only prevail to the extent it shows that the Fund's determination on the contribution base unit issue was unreasonable or clearly erroneous. That's what the statute says.

Lastly, I'm going to turn to this issue which first came up in one of our discovery calls, and actually The Times has furthered this in an affidavit that Mr. Haves has submitted in connection with The Times' brief as well as The New York Times' own brief in this matter

And that is The New York Times admits when they closed C & S, they focus on how much they needed to contribute to the Pension Fund to avoid a partial withdrawal.

What they're really complaining about here with respect to the information they say they couldn't get from the Fund is that they're really happy -- unhappy that they focus on total wages as opposed to shifts when they did

2	ARBITRATION report indicate the number of shifts any employee worked?	2 3	ARBITRATION Pension Fund? A We don't have a practice. We don't
2 3 4	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection.	2 3 4	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports?
2 3 4 5	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading.	2 3 4 5	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports?
2 3 4 5 6	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead,	2 3 4 5 6	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically
2 3 4 5 6 7	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are	2 3 4 5 6 7	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look
2 3 4 5 6 7 8	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no.	2 3 4 5 6 7 8	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any
2 3 4 5 6 7 8	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on.	2 3 4 5 6 7 8	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that?
2 3 4 5 6 7 8 9	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH:	2 3 4 5 6 7 8 9	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that? A Yes, I do. At the time of
2 3 4 5 6 7 8 9 10	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH: Q And we can put aside the exhibit.	2 3 4 5 6 7 8 9 10	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that? A Yes, I do. At the time of transition from the old system to the new system, we actually mirrored the reports
2 3 4 5 6 7 8 9 10 11	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH: Q And we can put aside the exhibit. Do you ever report to the Pension Fund how many shifts were worked by a	2 3 4 5 6 7 8 9 10 11 12	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that? A Yes, I do. At the time of transition from the old system to the new
2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH: Q And we can put aside the exhibit. Do you ever report to the Pension	2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that? A Yes, I do. At the time of transition from the old system to the new system, we actually mirrored the reports that were previously filed under the old system as far as we can go back. So this is
2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH: Q And we can put aside the exhibit. Do you ever report to the Pension Fund how many shifts were worked by a particular employee? A Never, no.	2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that? A Yes, I do. At the time of transition from the old system to the new system, we actually mirrored the reports that were previously filed under the old system as far as we can go back. So this is the same format that's been used for years.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH: Q And we can put aside the exhibit. Do you ever report to the Pension Fund how many shifts were worked by a particular employee? A Never, no. MR. GARFIELD: Objection.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that? A Yes, I do. At the time of transition from the old system to the new system, we actually mirrored the reports that were previously filed under the old system as far as we can go back. So this is the same format that's been used for years. Q And to whom did you send these
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH: Q And we can put aside the exhibit. Do you ever report to the Pension Fund how many shifts were worked by a particular employee? A Never, no. MR. GARFIELD: Objection. Leading.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that? A Yes, I do. At the time of transition from the old system to the new system, we actually mirrored the reports that were previously filed under the old system as far as we can go back. So this is the same format that's been used for years.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH: Q And we can put aside the exhibit. Do you ever report to the Pension Fund how many shifts were worked by a particular employee? A Never, no. MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Again, why	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that? A Yes, I do. At the time of transition from the old system to the new system, we actually mirrored the reports that were previously filed under the old system as far as we can go back. So this is the same format that's been used for years. Q And to whom did you send these remittance reports?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH: Q And we can put aside the exhibit. Do you ever report to the Pension Fund how many shifts were worked by a particular employee? A Never, no. MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Again, why don't you rephrase it so it's not	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that? A Yes, I do. At the time of transition from the old system to the new system, we actually mirrored the reports that were previously filed under the old system as far as we can go back. So this is the same format that's been used for years. Q And to whom did you send these remittance reports? A These remittance reports are e-mailed to the Fund office.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH: Q And we can put aside the exhibit. Do you ever report to the Pension Fund how many shifts were worked by a particular employee? A Never, no. MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Again, why don't you rephrase it so it's not leading.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? Like going back, what do those reports look like ten years ago? Do you have any knowledge about that? A Yes, I do. At the time of transition from the old system to the new system, we actually mirrored the reports that were previously filed under the old system as far as we can go back. So this is the same format that's been used for years. Q And to whom did you send these remittance reports? A These remittance reports are e-mailed to the Fund office. Q And how did you generally
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION report indicate the number of shifts any employee worked? MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Go ahead, you can have that question. You are right; however, the answer is no. Let's move on. BY MR. ROTH: Q And we can put aside the exhibit. Do you ever report to the Pension Fund how many shifts were worked by a particular employee? A Never, no. MR. GARFIELD: Objection. Leading. ARBITRATOR IRVINGS: Again, why don't you rephrase it so it's not leading. What's your practice regarding	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION Pension Fund? A We don't have a practice. We don't report shifts for the Pension Fund. Q Can you tell us historically anything about the format of these reports? 2 3 4	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base.	2 3 4 5 6	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about
2 3 4 5 6 7	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee	2 3 4 5 6 7	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier?
2 3 4 5 6 7 8	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are	2 3 4 5 6 7 8	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the
2 3 4 5 6 7	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted	2 3 4 5 6 7	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the
2 3 4 5 6 7 8	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund.	2 3 4 5 6 7 8	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation.
2 3 4 5 6 7 8 9	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one	2 3 4 5 6 7 8 9	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay.
2 3 4 5 6 7 8 9 10	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type.	2 3 4 5 6 7 8 9 10	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned
2 3 4 5 6 7 8 9 10 11	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay.	2 3 4 5 6 7 8 9 10 11 12	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay.
2 3 4 5 6 7 8 9 10 11 12 13	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay. So I think you testified that there	2 3 4 5 6 7 8 9 10 11 12 13	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well?
2 3 4 5 6 7 8 9 10 11 12 13 14	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay.	2 3 4 5 6 7 8 9 10 11 12 13 14	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well? A Yes, sir.
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay. So I think you testified that there is a contribution that is referred to as	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well? A Yes, sir. Q Can you tell us what that is?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay. So I think you testified that there is a contribution that is referred to as DELWEL?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well? A Yes, sir. Q Can you tell us what that is? A Yes, sir. The DELCOL is a
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay. So I think you testified that there is a contribution that is referred to as DELWEL? A Yes, sir. Q How is that calculation how is	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well? A Yes, sir. Q Can you tell us what that is?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay. So I think you testified that there is a contribution that is referred to as DELWEL? A Yes, sir.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well? A Yes, sir. Q Can you tell us what that is? A Yes, sir. The DELCOL is a shift-based contribution which is capped at
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay. So I think you testified that there is a contribution that is referred to as DELWEL? A Yes, sir. Q How is that calculation how is that contribution calculated by The Times?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well? A Yes, sir. Q Can you tell us what that is? A Yes, sir. The DELCOL is a shift-based contribution which is capped at five shifts per week except for personal
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay. So I think you testified that there is a contribution that is referred to as DELWEL? A Yes, sir. Q How is that calculation how is that contribution calculated by The Times? A We aggregate a series of earning	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well? A Yes, sir. Q Can you tell us what that is? A Yes, sir. The DELCOL is a shift-based contribution which is capped at five shifts per week except for personal days which are unlimited for the week that
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay. So I think you testified that there is a contribution that is referred to as DELWEL? A Yes, sir. Q How is that calculation how is that contribution calculated by The Times? A We aggregate a series of earning codes, total them up by employee and	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well? A Yes, sir. Q Can you tell us what that is? A Yes, sir. The DELCOL is a shift-based contribution which is capped at five shifts per week except for personal days which are unlimited for the week that they would get credit for a shift.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay. So I think you testified that there is a contribution that is referred to as DELWEL? A Yes, sir. Q How is that calculation how is that contribution calculated by The Times? A We aggregate a series of earning codes, total them up by employee and multiply that amount by the current rate	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well? A Yes, sir. Q Can you tell us what that is? A Yes, sir. The DELCOL is a shift-based contribution which is capped at five shifts per week except for personal days which are unlimited for the week that they would get credit for a shift. Q And how does the payroll system
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Welfare employer pay contribution. Then we have a shift-based contribution for DELCOL. Those are codes we use in the payroll system. DELCOL, that's a shift-base. And we also have two employee contributions that are made that are deducted from an employee's pay and remitted to the Fund. So it's kind of not really one type. Q Okay. So I think you testified that there is a contribution that is referred to as DELWEL? A Yes, sir. Q How is that calculation how is that contribution calculated by The Times? A We aggregate a series of earning codes, total them up by employee and multiply that amount by the current rate which I believe is 7.68 percent. And that's	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q How do the earnings that are aggregated for this Welfare Fund contribution compare to the earnings that are aggregated for the Pension Fund contribution that we had talked about earlier? A The DELWEL and the DELPEN are the same earning codes they use for the calculation. Q Okay. And then I think you mentioned something called the DELCOL Welfare Fund contribution as well? A Yes, sir. Q Can you tell us what that is? A Yes, sir. The DELCOL is a shift-based contribution which is capped at five shifts per week except for personal days which are unlimited for the week that they would get credit for a shift. Q And how does the payroll system compute that contribution, the DELCOL

	Page 54		Page 55

1	ARBITRATION	1	ARBITRATION
2	number of shifts up to five for the week and	2	to the Welfare Fund compare to the
3	we multiply that by 47 cents per shift. And	3	remittance reports that The Times sends to
4	whatever that number comes up to, that's the	4	the Pension Fund?
5	amount that we remit to the Fund office.	5	A Could you repeat that question?
6	Q And how frequently does The Times	6	Q Sure.
7	remit those contributions to the Welfare	7	How do the remittance reports that
8	Fund?	8	you send to the Welfare Fund compare to the
9	A Those contributions are remitted	9	reports that you send to the Pension Fund?
10	weekly.	10	A Well, the DELWEL and the DELPEN
11	Q And when The Times remits those	11 12	remittance reports are very similar. But
12	ARBITRATOR IRVINGS: Just so		the other three are all shift-based, so, you
13	I'm clear, you are saying that the	13 14	know, three are shift-based and one is
14	DELCOL is remitted weekly or all	15	percentage-based.
15	Welfare Fund is remitted weekly?	16	Q I'll ask you to turn to Exhibit 32
16	THE WITNESS: All the Welfare		in the binder. I believe that should be in
17	Fund are remitted weekly. All.	17 18	the first binder.
18	BY MR. ROTH:	19	Mr. Claffee, do you recognize this
19	Q Okay. And when you make those	20	document?
20	weekly remittances, what does The Times send	21	A Yes, I do.
21	to the Welfare Fund?	22	Q What is it?
22	A Again, we send the money and we	23	A Give me one second to look through
23	also send what we call remittance reports to	24	it.
24	the Fund office.	25	This is the remittance report we
25	Q And how do those remittance reports	23	send to the Fund for the Welfare Fund

The next column, DEDYTD, stands for
2 3 4 5 6	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the	2 3 4 5 6	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've
2 3 4 5 6 7	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund.	2 3 4 5 6 7	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL.
2 3 4 5 6 7 8	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of	2 3 4 5 6 7 8	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the
2 3 4 5 6 7 8	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is.	2 3 4 5 6 7 8 9	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is
2 3 4 5 6 7 8 9	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution.	2 3 4 5 6 7 8 9	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for
2 3 4 5 6 7 8 9 10	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of	2 3 4 5 6 7 8 9 10	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period.
2 3 4 5 6 7 8 9 10 11	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what	2 3 4 5 6 7 8 9 10 11 12	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the
2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what they are?	2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the base year-to-date. That would be this
2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what they are? A Absolutely.	2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the base year-to-date. That would be this employee's total shifts at this point in
2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what they are? A Absolutely. Similar to the first report, you	2 3 4 5 6 7 8 9 10 11 12 13 14 15	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the base year-to-date. That would be this employee's total shifts at this point in time whenever this report was created.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what they are? A Absolutely. Similar to the first report, you have the individual's names listed	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the base year-to-date. That would be this employee's total shifts at this point in time whenever this report was created. Q Just to clarify, what are the units
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what they are? A Absolutely. Similar to the first report, you have the individual's names listed individually for their weekly contribution.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the base year-to-date. That would be this employee's total shifts at this point in time whenever this report was created.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what they are? A Absolutely. Similar to the first report, you have the individual's names listed individually for their weekly contribution. You have their unique employee ID number in	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the base year-to-date. That would be this employee's total shifts at this point in time whenever this report was created. Q Just to clarify, what are the units of those last two columns, the base columns?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what they are? A Absolutely. Similar to the first report, you have the individual's names listed individually for their weekly contribution. You have their unique employee ID number in the second column. They're actually the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the base year-to-date. That would be this employee's total shifts at this point in time whenever this report was created. Q Just to clarify, what are the units of those last two columns, the base columns? A The last two columns are based on
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what they are? A Absolutely. Similar to the first report, you have the individual's names listed individually for their weekly contribution. You have their unique employee ID number in the second column. They're actually the last four digits of their Social Security	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the base year-to-date. That would be this employee's total shifts at this point in time whenever this report was created. Q Just to clarify, what are the units of those last two columns, the base columns? A The last two columns are based on shifts.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what they are? A Absolutely. Similar to the first report, you have the individual's names listed individually for their weekly contribution. You have their unique employee ID number in the second column. They're actually the last four digits of their Social Security number for confidentiality reasons.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the base year-to-date. That would be this employee's total shifts at this point in time whenever this report was created. Q Just to clarify, what are the units of those last two columns, the base columns? A The last two columns are based on shifts. Q And what happens, so if you were to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ARBITRATION contributions. Q Starting on the first page of the actual report as opposed to the cover e-mail, what type of contribution is being reported on this page? A This is the DELCOL which is the Deliverers' COLA Welfare Fund. Q Just remind us what type of contribution that is. A This is shift-based contribution. Q Can you walk us through each of these columns in this report, explain what they are? A Absolutely. Similar to the first report, you have the individual's names listed individually for their weekly contribution. You have their unique employee ID number in the second column. They're actually the last four digits of their Social Security	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	ARBITRATION deduction current column which is actual calculated amount of the shifts, actual amount of the contribution based on the shifts, \$2.35 for the first person. The next column, DEDYTD, stands for the year-to-date amount that we've contributed based on the shifts for DELCOL. The next column, which is the Base CUR, is base current. That Number 5 is a shift count. So that's five shifts for the current period. The next column is Base YTD, is the base year-to-date. That would be this employee's total shifts at this point in time whenever this report was created. Q Just to clarify, what are the units of those last two columns, the base columns? A The last two columns are based on shifts. Q And what happens, so if you were to take the base current for a particular

1	_	1	_
1	ARBITRATION	1	ARBITRATION
2	of the column under Pension Fund High Rate	2	Q So the answer to my question is no?
3	that calculates the wages that an employee	3	A No. Yes, sir.
4	earns per shift times 8 percent?	4	Q The Times does not actually
5	A You asked do I see it?	5	contribute to the Pension Fund 8 percent of
6	Q Did you see it when you received	6	all wages that an employee earns in a month;
7	it?	7	is that correct? For shifts worked?
8	A Yes, yes.	8	A That's correct.
9	Q Mr. Claffee, what's your	9	Q If an employee works six shifts in
10	understanding of the term "shift" as we're	10	a week, The Times does not contribute
11	using it here today?	11	8 percent of the money the employee earned
12	A The term "shift," my understanding	12	in respect of all six shifts; is that
13	is when someone works a shift.	13	correct?
14	Q Does it refer to a number of hours?	14	A That's correct, yes, sir.
15	A It could, I guess. I'm not too	15	Q And why is that?
16	familiar with that. I'm not sure what you	16	A I couldn't tell you that. I could
17	are asking there.	17	tell you the mechanism. I don't understand
18	Q When you received this form	18	why we don't contribute on the sixth shift.
19	approximately once a year, did you ever	19	Q Mr. Claffee, during your deposition
20	communicate with anyone in the Pension Fund	20	in December, if you recall, you initially
21	office that you thought the form was	21	testified that The Times' percentage-based
22	incorrect?	22	contributions to the Pension Fund and the
23	A I don't use that column for	23	Welfare Fund were based strictly on a
24	anything so I never communicated anything	24	percentage of total wages without any
25	out.	25	limitation due to shifts, correct?

Q You recently signed an affidavit that was submitted with The Times' prehearing brief in this matter; is that correct? A Yes, sir. Q In your affidavit, you described the sixth shift as overtime; is that correct? A That's correct. Q Do you have any understanding of whether the term "shift" is defined in the collective bargaining agreement between The Times and the Union?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	ARBITRATION Q If an employee works five shifts in a week I want to give you an example to run through the calculation. A Okay. Q To keep the numbers simple, let's say the wage rate is \$200 per shift. So is it your testimony that to determine how much The Times is required to contribute to the Pension Fund for that employee in this example, you would take 8 percent of a thousand dollars? A You said five days shifts at \$200 for a thousand dollars times 8 percent would be \$80, yes, exactly. Q Would you describe that calculation as taking 8 percent of the total wages? A If that was all there were, that would be 8 percent of the total, yes. Q Now, if The Times contributed by
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION A Correct. Q And later during the same deposition following a break and discussion with counsel, you changed your testimony, correct? A Correct. Q You recently signed an affidavit that was submitted with The Times' prehearing brief in this matter; is that correct? A Yes, sir. Q In your affidavit, you described the sixth shift as overtime; is that correct? A That's correct. Q Do you have any understanding of whether the term "shift" is defined in the collective bargaining agreement between The Times and the Union? A I don't know that.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION Q If an employee works five shifts in a week I want to give you an example to run through the calculation. A Okay. 2	ARBITRATION six shifts, correct?	2	ARBITRATION first five shifts, that would yield the same
2	ARBITRATION six shifts, correct? A Correct.	2 3	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an
2 3 4	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by	2 3 4	ARBITRATION first five shifts, that would yield the same contribution as if The Times was
2 3 4 5	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you	2 3 4 5	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the
2 3 4 5	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same	2 3 4 5 6	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct?
2 3 4 5 6 7	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund?	2 3 4 5 6 7	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do
2 3 4 5 6 7 8	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time.	2 3 4 5 6 7 8	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number.
2 3 4 5 6 7 8	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure.	2 3 4 5 6 7 8 9	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that
2 3 4 5 6 7 8 9	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by	2 3 4 5 6 7 8 9	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution
2 3 4 5 6 7 8 9 10	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this	2 3 4 5 6 7 8 9 10	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is
2 3 4 5 6 7 8 9 10 11	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the	2 3 4 5 6 7 8 9 10 11 12	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution
2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct?	2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct?
2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct? A Correct, yes.	2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct? A That's correct, yes, sir.
2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct?	2 3 4 5 6 7 8 9 10 11 12 13 14 15	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct? A That's correct, yes, sir. Q Do you have an understanding what
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct? A Correct, yes. Q And five times \$16 is \$80, correct? A Correct.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct? A That's correct, yes, sir. Q Do you have an understanding what the term, quote, contribution rate, end
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct? A Correct, yes. Q And five times \$16 is \$80, correct? A Correct. Q And you agree you would disregard	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct? A That's correct, yes, sir. Q Do you have an understanding what the term, quote, contribution rate, end quote, means?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct? A Correct, yes. Q And five times \$16 is \$80, correct? A Correct. Q And you agree you would disregard the sixth shift for purposes of determining	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct? A That's correct, yes, sir. Q Do you have an understanding what the term, quote, contribution rate, end quote, means? A No, I don't.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct? A Correct, yes. Q And five times \$16 is \$80, correct? A Correct. Q And you agree you would disregard the sixth shift for purposes of determining the calculation; is that correct?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct? A That's correct, yes, sir. Q Do you have an understanding what the term, quote, contribution rate, end quote, means? A No, I don't. Q For The Times' contribution to the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct? A Correct, yes. Q And five times \$16 is \$80, correct? A Correct. Q And you agree you would disregard the sixth shift for purposes of determining the calculation; is that correct? A That is correct.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct? A That's correct, yes, sir. Q Do you have an understanding what the term, quote, contribution rate, end quote, means? A No, I don't. Q For The Times' contribution to the Pension Fund in your affidavit and in your
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct? A Correct, yes. Q And five times \$16 is \$80, correct? A Correct. Q And you agree you would disregard the sixth shift for purposes of determining the calculation; is that correct? A That is correct. Q So am I correct that for an	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct? A That's correct, yes, sir. Q Do you have an understanding what the term, quote, contribution rate, end quote, means? A No, I don't. Q For The Times' contribution to the Pension Fund in your affidavit and in your testimony, you described multiplying certain
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct? A Correct, yes. Q And five times \$16 is \$80, correct? A Correct. Q And you agree you would disregard the sixth shift for purposes of determining the calculation; is that correct? A That is correct. Q So am I correct that for an employee who worked six shifts in a week, if	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct? A That's correct, yes, sir. Q Do you have an understanding what the term, quote, contribution rate, end quote, means? A No, I don't. Q For The Times' contribution to the Pension Fund in your affidavit and in your testimony, you described multiplying certain earnings by the percentage contribution
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	ARBITRATION six shifts, correct? A Correct. Q Again, if the Times contributed by shift instead for up to five shifts, do you agree that you would obtain the same calculation of \$80 that The Times would ultimately contribute to the Pension Fund? A Could you do that one more time. Q Sure. So if The Times contributes by shift for up to five shifts, under this example, you testified earlier that the employee would earn \$16 per shift, correct? A Correct, yes. Q And five times \$16 is \$80, correct? A Correct. Q And you agree you would disregard the sixth shift for purposes of determining the calculation; is that correct? A That is correct. Q So am I correct that for an	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	ARBITRATION first five shifts, that would yield the same contribution as if The Times was contributing 8 percent of the wages that an employee earns per shift but only for the first five shifts, correct? A Correct. With the exception it's not including some of the other items. I do have that aggregate number. Q In your affidavit, you wrote that The Times,' quote, percentage contribution rate, end quote, to the Pension Fund is 8 percent." Is that correct? A That's correct, yes, sir. Q Do you have an understanding what the term, quote, contribution rate, end quote, means? A No, I don't. Q For The Times' contribution to the Pension Fund in your affidavit and in your testimony, you described multiplying certain

2	ARBITRATION	1 2	ARBITRATION
3	Q Of their earnings per day?	3	MR. GARFIELD: Mr. Arbitrator,
4	A Of their weekly earnings.	4	I would like to show the witness one
5	Q Is that obtained by taking their	5	of the exhibits it's 18, but it's
6	average earnings per day and multiplying it	6	in the objected.
7	times five?	7	MR. MILLER: Objected
8	A No. It's taking the total for each	8	Exhibit 18?
9	of the weeks and dividing that by 8.	9	MR. GARFIELD: Correct.
10	Q We spoke about the differential	10	ARBITRATOR IRVINGS: I don't
11	payments for the tractor-trailer employees.	11	know where my Objected folder went.
12	A Uh-huh.	12	Thanks.
13	Q How is that differential payment	13	MR. MILLER: Mr. Arbitrator, we
14	made to employees?	14	object to the use of this document
15	A It has its own earning code.	15	and its introduction into the record. ARBITRATOR IRVINGS: And the
16	Q Is it made on a per-shift basis? A It's made on the work that they do.	16	
17	A It's made on the work that they do. Whatever type of work that they do, if	17	basis is that you don't have either
18		18	of the people. MR. MILLER: The basis is that,
19	they're using the tractor-trailer for that	19	
20	work, they would get the differential. Q If they work on the tractor-trailer	20	indeed, we do not have either of the
21	Q If they work on the tractor-trailer for a day, then they would get the	21	people to testify as to the context for this document.
22	differential?	22	The document makes reference to, I
23	A I'm not really that clear on	23	believe, accrued benefits. The second
24	exactly whether it's	24	full sentence refers to checks
25	Q Okay.	25	representing accrued benefits. That's a
	Q Okty.		representing accrack benefits. That's a

I thought we had moved on. ARBITRATOR IRVINGS: No problem.
2 A It does. We base it on wages, the 2 eight-week average of wages. The last full 3 eight weeks they work is how we currently do 5 it. As far back as I can go, I think we 6 went back to 2001, but we have been doing 7 it that way for quite some time. 8 Q So your understanding is the 9 contributions with respect to employees on 10 Workers' Comp. have nothing to do with 11 shifts? 12 A Not as far as I know, they are not. 13 We use wages and we multiply it by 14 8 percent. 15 Q So you think this letter is 16 incorrect? 17 A For the way I do it today, yes. I 18 would not have worded it that way. I would 19 have taken wages times 8 percent. 20 ARBITRATOR IRVINGS: Okay. I'm 21 willing to accept the document. 22 You can make your arguments as to	ARBITRATION received in Evidence.) ARBITRATOR IRVINGS: I'm taking the letter and the pages behind. Thank you. BY MR. GARFIELD: Q Mr. Claffee, if the contribution to the Pension Fund was based on wages, as you are testifying is the case, would it yield a different dollar amount than if the contribution was based on shifts? A We're talking about Workers' Comp. cases? Q Yes, still on Exhibit 116. MR. MILLER: Your question continues to relate to the exhibit? MR. GARFIELD: That is correct. MR. MILLER: I'm sorry. I thought we had moved on. ARBITRATOR IRVINGS: No problem. THE WITNESS: I'm sorry.

ROTH: Q Mr. Claffee, Mr. Gutterman asked you a couple of hypotheticals involving what the contribution will be for a certain employee who had worked a certain number of shifts and so on. I just want to ask you a couple of similar hypotheticals. So first, if you had an employee who worked four shifts and then took one personal day and let's say, just keeping with the numbers we used before, was paid \$200 for each of those shifts and was also paid \$200 for the personal day for a total earnings for the week of a thousand dollars. How would you calculate the pension contribution in that situation?
ARBITRATION ARBITRATOR IRVINGS: Okay. Thank you. THE WITNESS: You're welcome. MR. RICHMAN: Can I just ask for a clarification? ARBITRATOR IRVINGS: Yes, you may. MR. RICHMAN: "They count." Doc that mean a sixth shift count? THE WITNESS: Can you please repeat? You caught me in the middle there. ARBITRATOR IRVINGS: Go ahead MR. RICHMAN: The question is, wl you just answered the question "They count," it talked about various types of paid leave. I wasn't sure exactly the question you were answering.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 nen 15 16 17 18	ARBITRATION REDIRECT EXAMINATION BY MR. A In the airlines, I was in charge of operations, labor relations and human resources. Q So for roughly how many years have you been involved with labor relations? A Oh, over 30. Q Can you briefly describe to us what the responsibilities are of the senior vice president for Operations and Labor at The New York Times? A At The Times my responsibilities include newspaper production, magazine production, both T Magazine, the weekly magazine that appears in the Sunday paper; Safety, security, building operations, all the real estate that The Times has around
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION of 2009. Q And what did you do before becoming senior VP for Operations and Labor at The Times? A I originally came to The Times in 2006, July of 2006, and I came in as vice president of Labor Relations. Q Can you provide the arbitrator a short summary of your work history prior to being employed at The New York Times. A Out of college I went to work for the airlines. Started with Ozark Airlines in 1974. Ozark was merged into TWA, later TWA was merged into American, so I kind of followed that track. Then shortly after 9-11 in 2001, I left the airlines for a period and went to work for the Transportation Security Administration, TSA. I stayed there for a couple years.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION Q And in connection with your airline work, in what area of airline operations were you employed? Α 23 What did The Times decide to do 23 We looked at every option we could 24 think of in dealing with the C & S financial 24 about C & S following the team's assessment? 25 25 A Following those meetings, we met issue. Page 129 Page 128 1 1 ARBITRATION **ARBITRATION** 2 2 with, again, our senior management to brief that period of time. So getting your hands 3 3 them on what those discussions had brought. on operating capital was pretty tough. And this was about the beginning of June of 4 4 Q What steps did The New York Times 5 5 2008 we had those discussions. Discussions have to take to implement its decision to 6 6 with the Union took place during the summer. close C & S? 7 7 So it was determined that C & S A Once we decided to close C & S and 8 8 should be closed, and we made a decision made that public, we knew that we would have 9 9 that we would publicly announce that in to sit down with the NMDU and discuss a 10 10 September of 2008. wind-down proposal and plan that would do 11 Q How was The New York Times doing 11 several things. 12 12 financially during this time period? Number one, we wanted to maintain 13 The New York Times, like most 13 the business we already had. It was already 14 14 publications, most newspapers, we were in terrible shape but we wanted to protect 15 really going through a really tough time 15 what we did have left. And we also wanted 16 with the advent of the e-readers and the 16 to come up with a plan that would treat the 17 17 Internet and that entire thing that employees fairly during the wind down. 18 18 continues today to give us problems. O What was your understanding, if 19 So we were having a really tough 19 any, about The Times' contractual 20 time. We were losing subscribers. They 20 obligations to C & S employees in the event

tough.

of the C & S closing?

Page 130

ARBITRATION

more than one year, to give them eight weeks of pay as their severance.

- Q And notwithstanding the contractual obligations, was The Times prepared to negotiate a package beyond those contractual obligations?
- A As I said, we wanted to maintain the business, we wanted to protect the business that we had, and we were prepared to give the employees a greater severance package covering more employees than we were contractually obligated to do.
- Q And let's discuss and why don't you summarize in general terms what issues were discussed with NMDU as part of these negotiations.
- A We discussed various issues. As I said, it was important to us to maintain the business. It was important to the Union that we treated the employees fairly, giving them something that would help them get a softer landing than what's called for the contract.

And also they were most interested

ARBITRATION

in our trying to hire in to The Times operations as many employees as they could get us to take.

Page 131

It was our original thought that we really didn't want to take hardly any employees. We were kind of exiting that business. So as part of the cost savings that we were going through at the time, it was our impression not to take any of those employees.

However, during the negotiations, it became very clear to us that this was a cornerstone issue for the Union that we hire some of these employees.

- Q And so as a consequence of this being a cornerstone issue for the Union, what was eventually agreed to?
- A After several months of discussion, we had identified a business plan that made sense for us to hold on to that we could justify where we would keep certain Manhattan retail distribution outlets under our control

So what we ended up coming up with

Page 132

ARBITRATION

was a plan that gave the company the option to, if there were less than eight copies of papers sold during a week as an average, we could give that work to anybody else. If it was less than eight copies during the week, we could give that work away.

So based on the construct such as that, we identified locations that had eight or more, and those we kept inside The Times. And we hired employees from C & S to do that work.

- Q And were pension costs a consideration that The Times were mindful of in these negotiations?
- A When we initially put together our plan, it was our plan not to hire any employees.

So part of our cost structure when we were figuring out what the cost of winding down C & S was, we had built in a withdrawal possibility, a partial withdrawal possibility.

That number was totaled about 15 million which was 12 million for the NMDU

Page 133

ARBITRATION

plan -- and C & S was part of a wholesaler plan, so we had identified \$3 million that would be associated with that.

Now, when we were going through the process of determining if we were going to hire employees or not, we realized that their desire for us to hire employees would address the issue of withdrawal liability.

So that was when we decided we'd go forward with that, then that affected what those withdrawal liability numbers were.

O Okav.

And how would the hiring of C & S employees at The Times, how would that address the issue of withdrawal liability?

- A Hiring enough employees from C & S at the rate that was The New York Times rate, because the C & S rate was less than The Times wage rate. So hiring them at The Times in the right numbers with the correct Times pay rate and wage rate would keep us above that level where we would pick a partial withdrawal.
 - Q And did The Times model how many

Page 134 Page 135 1 ARBITRATION 1 ARBITRATION 2 2 When we began the negotiations and C & S employees would be needed to 3 3 potentially avoid or, rather, prevent -once we started really talking about taking 4 4 strike that. on employees, our proposals initially were 5 5 to pay them at C & S rates. And the Union, Did The Times model how many C & S 6 6 employees The Times would need to prevent a of course, wanted a higher number. I think 7 7 partial withdrawal? they were near 80 people at one point that 8 8 The driver was how many employees they wanted us to take. 9 9 did it take to get the job done. And so we Eighty, of course, didn't fit into 10 10 figured that it would be somewhere between the business plan of the modeling of work 11 58 and 60 employees that would kind of get 11 that we needed to have done, so we ended up us to that level. 12 12 agreeing to 65 folks at The New York Times 13 13 So, yes, we did model that. And rates 14 14 those numbers coincidentally worked out. O I'd now like to turn your attention 15 15 And what was your understanding at to Exhibit Number 55, which I think is in 16 that point in time of the relevant unit for 16 the second binder. 17 measuring whether a 70 percent decline might 17 Α Yes. 18 18 occur? Do you recognize this document? 19 19 Do you recognize this document, Α It was the percentage of wage. 20 Q It was wages? 20 sir? 21 21 Wages. A Α Yes. A The change to this would have been reflected in the final backup to the final document because then we would be able to fill in the TBDs. Q And thus now I'd like you to turn your attention to the first page of this document, the one that is entitled on the right NYT-000713. And how was this first page	1 ARBITRATION 2 range is 3 million. 3 What that represents is we now know 4 that we have a signed agreement with the 5 Union and it's been ratified, so the numbers 6 that we can place in here now are our best 7 estimate of what our withdrawal liability 8 would be. 9 Q And does this document contain a 10 description relating to The New York Times' 11 assumption about withdrawal liability for 12 the NMDU plan? 13 A Yes, it does. 14 It states that it assumes no
ARBITRATION to be determined. Q And which, if any, of the 8-K or 8-K/A filings would the Number 15 million on the last page have been reflected in? A The change to this would have been reflected in the final backup to the final document because then we would be able to fill in the TBDs. Q And thus now I'd like you to turn your attention to the first page of this document, the one that is entitled on the right NYT-000713. And how was this first page different from the last page of the	1 ARBITRATION 2 range is 3 million. 3 What that represents is we now know 4 that we have a signed agreement with the 5 Union and it's been ratified, so the numbers 6 that we can place in here now are our best 7 estimate of what our withdrawal liability 8 would be. 9 Q And does this document contain a 10 description relating to The New York Times' 11 assumption about withdrawal liability for 12 the NMDU plan? 13 A Yes, it does. 14 It states that it assumes no 15 withdrawal liability for the NMDU plan and a
ARBITRATION to be determined. Q And which, if any, of the 8-K or 8-K/A filings would the Number 15 million on the last page have been reflected in? A The change to this would have been reflected in the final backup to the final document because then we would be able to fill in the TBDs. Q And thus now I'd like you to turn your attention to the first page of this document, the one that is entitled on the right NYT-000713. And how was this first page different from the last page of the document?	1 ARBITRATION 2 range is 3 million. 3 What that represents is we now know 4 that we have a signed agreement with the 5 Union and it's been ratified, so the numbers 6 that we can place in here now are our best 7 estimate of what our withdrawal liability 8 would be. 9 Q And does this document contain a 10 description relating to The New York Times' 11 assumption about withdrawal liability for 12 the NMDU plan? 13 A Yes, it does. 14 It states that it assumes no 15 withdrawal liability for the NMDU plan and a 16 minimum withdrawal for the C & S plan.
ARBITRATION to be determined. Q And which, if any, of the 8-K or 8-K/A filings would the Number 15 million on the last page have been reflected in? A The change to this would have been reflected in the final backup to the final document because then we would be able to fill in the TBDs. Q And thus now I'd like you to turn your attention to the first page of this document, the one that is entitled on the right NYT-000713. And how was this first page different from the last page of the document? A This page has now removed the TBDs,	1 ARBITRATION 2 range is 3 million. 3 What that represents is we now know 4 that we have a signed agreement with the 5 Union and it's been ratified, so the numbers 6 that we can place in here now are our best 7 estimate of what our withdrawal liability 8 would be. 9 Q And does this document contain a 10 description relating to The New York Times' 11 assumption about withdrawal liability for 12 the NMDU plan? 13 A Yes, it does. 14 It states that it assumes no 15 withdrawal liability for the NMDU plan and a 16 minimum withdrawal for the C & S plan. 17 The C & S plan was a wholesaler
1 ARBITRATION 2 to be determined. 3 Q And which, if any, of the 8-K or 4 8-K/A filings would the Number 15 million on 5 the last page have been reflected in? 6 A The change to this would have been 7 reflected in the final backup to the final 8 document because then we would be able to 9 fill in the TBDs. 10 Q And thus now I'd like you to turn 11 your attention to the first page of this 12 document, the one that is entitled on the 13 right NYT-000713. 14 And how was this first page 15 different from the last page of the 16 document? 17 A This page has now removed the TBDs, 18 and they've replaced them with numbers, if	1 ARBITRATION 2 range is 3 million. 3 What that represents is we now know 4 that we have a signed agreement with the 5 Union and it's been ratified, so the numbers 6 that we can place in here now are our best 7 estimate of what our withdrawal liability 8 would be. 9 Q And does this document contain a 10 description relating to The New York Times' 11 assumption about withdrawal liability for 12 the NMDU plan? 13 A Yes, it does. 14 It states that it assumes no 15 withdrawal liability for the NMDU plan and a 16 minimum withdrawal for the C & S plan. 17 The C & S plan was a wholesaler 18 plan.
ARBITRATION to be determined. Q And which, if any, of the 8-K or 8-K/A filings would the Number 15 million on the last page have been reflected in? A The change to this would have been reflected in the final backup to the final document because then we would be able to fill in the TBDs. Q And thus now I'd like you to turn your attention to the first page of this document, the one that is entitled on the right NYT-000713. And how was this first page different from the last page of the document? A This page has now removed the TBDs, and they've replaced them with numbers, if you will.	1 ARBITRATION 2 range is 3 million. 3 What that represents is we now know 4 that we have a signed agreement with the 5 Union and it's been ratified, so the numbers 6 that we can place in here now are our best 7 estimate of what our withdrawal liability 8 would be. 9 Q And does this document contain a 10 description relating to The New York Times' 11 assumption about withdrawal liability for 12 the NMDU plan? 13 A Yes, it does. 14 It states that it assumes no 15 withdrawal liability for the NMDU plan and a 16 minimum withdrawal for the C & S plan. 17 The C & S plan was a wholesaler 18 plan. 19 Q That you referred to earlier?
ARBITRATION to be determined. Q And which, if any, of the 8-K or 8-K/A filings would the Number 15 million on the last page have been reflected in? A The change to this would have been reflected in the final backup to the final document because then we would be able to fill in the TBDs. Q And thus now I'd like you to turn your attention to the first page of this document, the one that is entitled on the right NYT-000713. And how was this first page different from the last page of the document? A This page has now removed the TBDs, and they've replaced them with numbers, if you will. So what this says now under the	1 ARBITRATION 2 range is 3 million. 3 What that represents is we now know 4 that we have a signed agreement with the 5 Union and it's been ratified, so the numbers 6 that we can place in here now are our best 7 estimate of what our withdrawal liability 8 would be. 9 Q And does this document contain a 10 description relating to The New York Times' 11 assumption about withdrawal liability for 12 the NMDU plan? 13 A Yes, it does. 14 It states that it assumes no 15 withdrawal liability for the NMDU plan and a 16 minimum withdrawal for the C & S plan. 17 The C & S plan was a wholesaler 18 plan. 19 Q That you referred to earlier? 20 A That's what I referred to earlier.
ARBITRATION to be determined. Q And which, if any, of the 8-K or 8-K/A filings would the Number 15 million on the last page have been reflected in? A The change to this would have been reflected in the final backup to the final document because then we would be able to fill in the TBDs. Q And thus now I'd like you to turn your attention to the first page of this document, the one that is entitled on the right NYT-000713. And how was this first page different from the last page of the document? A This page has now removed the TBDs, and they've replaced them with numbers, if you will. So what this says now under the Potential Withdrawal Liability is the	ARBITRATION range is 3 million. What that represents is we now know that we have a signed agreement with the Union and it's been ratified, so the numbers that we can place in here now are our best estimate of what our withdrawal liability would be. Q And does this document contain a description relating to The New York Times' assumption about withdrawal liability for the NMDU plan? A Yes, it does. It states that it assumes no withdrawal liability for the NMDU plan and a minimum withdrawal for the C & S plan. The C & S plan was a wholesaler plan. Q That you referred to earlier? A That's what I referred to earlier. Q And what is the date on this
ARBITRATION to be determined. Q And which, if any, of the 8-K or 8-K/A filings would the Number 15 million on the last page have been reflected in? A The change to this would have been reflected in the final backup to the final document because then we would be able to fill in the TBDs. Q And thus now I'd like you to turn your attention to the first page of this document, the one that is entitled on the right NYT-000713. And how was this first page different from the last page of the document? A This page has now removed the TBDs, and they've replaced them with numbers, if you will. So what this says now under the Potential Withdrawal Liability is the original number was 15 million. Now there's	1 ARBITRATION 2 range is 3 million. 3 What that represents is we now know 4 that we have a signed agreement with the 5 Union and it's been ratified, so the numbers 6 that we can place in here now are our best 7 estimate of what our withdrawal liability 8 would be. 9 Q And does this document contain a 10 description relating to The New York Times' 11 assumption about withdrawal liability for 12 the NMDU plan? 13 A Yes, it does. 14 It states that it assumes no 15 withdrawal liability for the NMDU plan and a 16 minimum withdrawal for the C & S plan. 17 The C & S plan was a wholesaler 18 plan. 19 Q That you referred to earlier? 20 A That's what I referred to earlier. 21 Q And what is the date on this 22 document, "this document" being the Page 1
1 ARBITRATION 2 to be determined. 3 Q And which, if any, of the 8-K or 4 8-K/A filings would the Number 15 million on 5 the last page have been reflected in? 6 A The change to this would have been 7 reflected in the final backup to the final 8 document because then we would be able to 9 fill in the TBDs. 10 Q And thus now I'd like you to turn 11 your attention to the first page of this 12 document, the one that is entitled on the 13 right NYT-000713. 14 And how was this first page 15 different from the last page of the 16 document? 17 A This page has now removed the TBDs, 18 and they've replaced them with numbers, if 19 you will. 20 So what this says now under the 21 Potential Withdrawal Liability is the 22 original number was 15 million. Now there's 23 a range that we've added, a low range and a	1 ARBITRATION 2 range is 3 million. 3 What that represents is we now know 4 that we have a signed agreement with the 5 Union and it's been ratified, so the numbers 6 that we can place in here now are our best 7 estimate of what our withdrawal liability 8 would be. 9 Q And does this document contain a 10 description relating to The New York Times' 11 assumption about withdrawal liability for 12 the NMDU plan? 13 A Yes, it does. 14 It states that it assumes no 15 withdrawal liability for the NMDU plan and a 16 minimum withdrawal for the C & S plan. 17 The C & S plan was a wholesaler 18 plan. 19 Q That you referred to earlier? 20 A That's what I referred to earlier. 21 Q And what is the date on this 22 document, "this document" being the Page 1 23 of this exhibit?
ARBITRATION to be determined. Q And which, if any, of the 8-K or 8-K/A filings would the Number 15 million on the last page have been reflected in? A The change to this would have been reflected in the final backup to the final document because then we would be able to fill in the TBDs. Q And thus now I'd like you to turn your attention to the first page of this document, the one that is entitled on the right NYT-000713. And how was this first page different from the last page of the document? A This page has now removed the TBDs, and they've replaced them with numbers, if you will. So what this says now under the Potential Withdrawal Liability is the original number was 15 million. Now there's	1 ARBITRATION 2 range is 3 million. 3 What that represents is we now know 4 that we have a signed agreement with the 5 Union and it's been ratified, so the numbers 6 that we can place in here now are our best 7 estimate of what our withdrawal liability 8 would be. 9 Q And does this document contain a 10 description relating to The New York Times' 11 assumption about withdrawal liability for 12 the NMDU plan? 13 A Yes, it does. 14 It states that it assumes no 15 withdrawal liability for the NMDU plan and a 16 minimum withdrawal for the C & S plan. 17 The C & S plan was a wholesaler 18 plan. 19 Q That you referred to earlier? 20 A That's what I referred to earlier. 21 Q And what is the date on this 22 document, "this document" being the Page 1

A I felt this was one of the thoughts they had, that they may be able to create a partial withdrawal with that claim. Q And what was your understanding of that claim? A My understanding of that claim is that they claimed that the companies that we had farmed the work out to were under our control and we had simply just done away with the Union members, hired in the back room somewhere these other companies and these employees were now doing the work. Q And did you form a belief about whether that action as alleged by the Fund might give rise to or have the Fund think it gave rise to a partial withdrawal? A I absolutely felt that that was what they were after.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ARBITRATION Q Now, I think you testified earlier that you were recused from certain trustee meetings where issues involving The New York Times were discussed. Do you remember that testimony? A Yes, I do. Q When did the meetings at which you were recused begin to occur? A Beginning of 2009. Q And as a consequence of these recusals, did you form a belief as to what the Fund's intentions were in connection with The Times? A Yes. I felt that the Fund was trying to determine if it could establish a basis for a partial withdrawal. Q Did there ever come a time in which the Pension Fund contacted The New York Times with a request for information about The Times' relationship to third-party wholesalers?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION belief as to why the Pension Fund was seeking that information? 2	When you just answered "contract,"	2	to The New York Times?
3	Exhibit 8 is the contract to which you were	3	A No.
4	referring?	4	Q And did there come a time when
5	A Yes, this is the contract.	5	Mr. Mangan ceased being the counsel to the
6	Q Okay.	6	Pension Fund?
7	When you became a trustee of the	7	A Yes.
8	Pension Fund, who was counsel to the Pension	8	Q And who took his place?
9	Fund?	9	A It was taken by, I can't remember
10	A At that time, I'm not sure. I	10	the young lady's name now, but they brought
11	think it was Warren.	11	in a whole new firm at one point.
12	Q Warren Mangan.	12	Q Does the name Elizabeth O'Leary
13	A And Neal Schelberg.	13	ring a bell?
14	ARBITRATOR IRVINGS: Warren	14	A It was before Elizabeth. Elizabeth
15	MR. RICHMAN: M-A-N-G-A-N. Or	15	came as part of the deal, so it was before
16	some form of that.	16	Elizabeth.
17	BY MR. RICHMAN:	17	Q So there was a deal
18	Q What firm is Mr. Schelberg from?	18	A There was Jani
19	A Proskauer.	19	Q Jani Rachelson?
20	Q And Proskauer provides what to	20	A Yes.
21	The New York Times?	21	Q So Jani Rachelson was there for a
22	A Labor counsel.	22	period of time?
23	Q Labor counsel?	23	A Yes.
24	A Yes.	24	Q And she's been counsel to the
25	Q And Mr. Schelberg provides counsel	25	Pension Fund?
	And Mr. Schelderg provides counser		r choion r und:
	Page 176		Page 177
1	ARBITRATION	1	ARBITRATION
2	A That's correct.	2	A I don't recall off the top of my
3	Q And then is that when the deal was	3	head. I'm sorry.
4	made for Elizabeth O'Leary to come in?	4	Q Mitchell Lewis, does that ring a
5	A Elizabeth O'Leary came in to be	5	bell?
6	counsel to the Fund, and the Union trustees	6	A As an auditor?
7	brought in someone else.	7	Q Yes.
8	Q Irwin Bluestein?	8	A Maybe Mitch, yeah.
9	A Irwin Bluestein.	9	Q Maybe Mitch?
10	Q Was Mr. Schelberg counsel to the	10	A I'm on a couple funds. There's
11	Employer trustees?	11	names running through my head.
12	A Yes.	12	Q How many funds are you on?
13	Q And the other three counsel you	13	A I'm on a couple of funds.
14	mentioned were counsel to the Union	14	Q "Couple" as in two?
15	trustees?	15	A Yes.
16	A Elizabeth at one point was the	16	Q So you don't know whether Mr. Lewis
17	Union trustee, but then at one point she	17	was the auditor to the Fund?
18	became sort of like tied to the director.	18	A I believe he was.
19	Q Okay.	19	Q But you're not sure?
20	And that director is Murray	20	A No.
21	Schwartz?	21	Q And is he still the auditor to the
22	A Murray Schwartz.	22	Fund?
23	Q And now who was the auditor to the	23	A If he was, he is.
24	Fund during the time that you've been a	24	Q If he was, he is. Okay.
25	trustee?	25	During the time you've been a

	it down, you are talking about shatting		discussions at The New York Times about
7			shutting C & S down?
8	11 105.		A We never focused on this language.
9	Q And when was that?	9	Q Never focused on this language?
10	A That would have been in 2008.	10 11	A No.
11	Q Okay.		Q Why not?
12	You see this contract on the first	12	A We were closing C & S down, so
13	page it says it extends the collective	13	provisions of the agreement, once it was
14	bargaining agreement which expires on	14	closed, would be gone.
15	March 30, 2008 until March 30, 2020.	15	Q Okay. Doesn't this language
16	Do you see that?	16	indicate to you how C & S was contributing
17	A Yes.	17	to the Pension Fund?
18	Q And was that, in your mind	18	A How they were contributing was not
19	that's accurate, correct?	19	important to me if I was shutting it down.
20	A Yes, that's what it says.	20	Q It wasn't important to you?
21	Q All right.	21	A Not when I was shutting it down.
22	And if you take a look at Page 7 of	22	Q Okay. Thank you.
23	the contract, and particularly language	23	Do you have any idea what the term
24	under K. This is the Roman Numeral VI, it	24	in the fifth line of K "full shift
25	starts on Page 4. Just so you have the	25	contribution" means?
	Page 200		Dama 201
	, and the second		Page 201

And, but it is my understanding that you looked at Form 5500s during the time period that you were working on closing down C & S. A Yes. Q I'm sorry. You have to wait until I've finished, even though you were right on the question. So, but you didn't recall exactly which 5500s you read, correct? A That's correct. Q So we're going to take them one by one.
that point. Okay. Prior to the Fund assessing partial withdrawal liability against The Times, had you seen these? A No. Okay. Now, you indicated on direct that you reviewed Form 5500s, correct? A Yes. Okay. Now, you indicated on direct that you reviewed Form 5500s, correct? A Yes. C And you indicated on direct that you received them from I wrote down "someone." A Yes. C Can you tell me who the someone is? A I don't recall. It might have been from our actuary consultant. I'm just not sure. O That actuary consultant would have been Mercer?	testified on direct was that you read the Form 5500. A I read some 5500s. I've read a lot of 5500s since I've gotten the letter. Q Okay. And, but it is my understanding that you looked at Form 5500s during the time period that you were working on closing down C & S. A Yes. Q I'm sorry. You have to wait until I've finished, even though you were right on the question. So, but you didn't recall exactly which 5500s you read, correct? A That's correct. Q So we're going to take them one by one. And so this one is for the plan
that point. Okay. Prior to the Fund assessing partial withdrawal liability against The Times, had you seen these? A No. Okay. Now, you indicated on direct that you reviewed Form 5500s, correct? A Yes. Q And you indicated on direct that you received them from I wrote down "someone." A Yes. C Can you tell me who the someone is? A I don't recall. It might have been from our actuary consultant. I'm just not sure. Q That actuary consultant would have been Mercer? A Yes.	testified on direct was that you read the Form 5500. A I read some 5500s. I've read a lot of 5500s since I've gotten the letter. Q Okay. And, but it is my understanding that you looked at Form 5500s during the time period that you were working on closing down C & S. A Yes. Q I'm sorry. You have to wait until I've finished, even though you were right on the question. So, but you didn't recall exactly which 5500s you read, correct? A That's correct. Q So we're going to take them one by one. And so this one is for the plan year ending 5-31-2007.
that point. Okay. Prior to the Fund assessing partial withdrawal liability against The Times, had you seen these? A No. Okay. Now, you indicated on direct that you reviewed Form 5500s, correct? A Yes. Okay and you indicated on direct that you received them from I wrote down "someone." A Yes. Can you tell me who the someone is? A I don't recall. It might have been from our actuary consultant. I'm just not sure. OR That actuary consultant would have been Mercer? A Yes.	testified on direct was that you read the Form 5500. A I read some 5500s. I've read a lot of 5500s since I've gotten the letter. Q Okay. And, but it is my understanding that you looked at Form 5500s during the time period that you were working on closing down C & S. A Yes. Q I'm sorry. You have to wait until I've finished, even though you were right on the question. So, but you didn't recall exactly which 5500s you read, correct? A That's correct. Q So we're going to take them one by one. And so this one is for the plan year ending 5-31-2007. And I want to direct your attention
that point. Okay. Prior to the Fund assessing partial withdrawal liability against The Times, had you seen these? A No. Okay. Now, you indicated on direct that you reviewed Form 5500s, correct? A Yes. Q And you indicated on direct that you received them from I wrote down "someone." A Yes. C Can you tell me who the someone is? A I don't recall. It might have been from our actuary consultant. I'm just not sure. Q That actuary consultant would have been Mercer? A Yes. Q And let's take a look at Exhibit 69, please.	testified on direct was that you read the Form 5500. A I read some 5500s. I've read a lot of 5500s since I've gotten the letter. Q Okay. And, but it is my understanding that you looked at Form 5500s during the time period that you were working on closing down C & S. A Yes. Q I'm sorry. You have to wait until I've finished, even though you were right on the question. So, but you didn't recall exactly which 5500s you read, correct? A That's correct. Q So we're going to take them one by one. And so this one is for the plan year ending 5-31-2007. And I want to direct your attention to Page 1793, particularly if you just read
that point. Okay. Prior to the Fund assessing partial withdrawal liability against The Times, had you seen these? A No. Okay. Now, you indicated on direct that you reviewed Form 5500s, correct? A Yes. Q And you indicated on direct that you received them from I wrote down "someone." A Yes. C Can you tell me who the someone is? A I don't recall. It might have been from our actuary consultant. I'm just not sure. Q That actuary consultant would have been Mercer? A Yes. Q And let's take a look at	testified on direct was that you read the Form 5500. A I read some 5500s. I've read a lot of 5500s since I've gotten the letter. Q Okay. And, but it is my understanding that you looked at Form 5500s during the time period that you were working on closing down C & S. A Yes. 2		2	plan states for the world to see and
3	A Okay.	3	
4	Q Now, did you read that when you	4	understand how it operates, and it gives you
5	read the Form 5500?	5	all of its elements there.
	A No, I did not.	6	So that's why I went straight
6	Q So did you read the audit report	7	there.
7	this is part of an audit report.		Q And as I recall your testimony
8	If we go back to Page 1785, you can	8	before, to you, contribution rate is the
9	see the front page of that.	9	same thing as contribution base unit?
10	A Yes.	10	A Yes.
11	Q Did you read the audit report at	11	MR. RICHMAN: I don't need to
12	the time that you read the 5500s?	12	go through these one by one.
13	A As I said, I wasn't sure if this	13	BY MR. RICHMAN:
14	was one of the 5500s I reviewed.	14	Q Is it your testimony, Mr. Hayes,
15	Q Okay.	15	you never read an audit report from the
16	But there were audit reports that	16	Pension Fund?
17	you did review.	17	A I never said that.
18	A No. I was focused when I looked	18	MR. MILLER: Wait. Objection.
19	at the 5500s, I was focused in one place and	19	MR. RICHMAN: I'm asking. It's
20	I was looking at the contribution rate.	20	his testimony.
21	When I went to the Form 5500, I	21	Q Is it your testimony that you have
22	wanted to see how the Fund stated that.	22	never read an audit report from the Pension
23	So that's where my focus was.	23	Fund?
24	Q Why was that your focus?	24	MR. MILLER: No. Objection. I
25	A Because that's the form that the	25	think the implication I don't know

Q And when was the first time that you read an audit report from the Pension Fund? A I can't recall. Q Did you read them during the time period that you were working on shutting down C & S? MR. MILLER: I think he already testified MR. RICHMAN: Excuse me. Q Did you read them A I can't recall when I read them. Q Okay. And so is it your testimony	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	ARBITRATION Fund? A No. Q It's not your testimony? A No, I can't tell you when I did or did not read it. Q So you don't know whether you read it before the Pension Fund assessed partial withdrawal liability against The Times? A I don't know if I did or not, no. Q Okay. When you were working on this project with respect to shutting down C & S, who else at The New York Times was working with you? A There was a very large group of us working on that project. It included people from Finance, it included a lot of folks. There was a room larger than this full of people. Q The room had more people or it was a large room?

Go ahead. A No, I didn't look at it for accuracy. Q What did you look at it for? A I was looking at it for how the Fund treated pension and it was percentage of wages. And it moved around the diversion, just like they had in the letters that we've written. So it was consistent. Q Okay.	A I was in the room, but the reviews of Mr. Lewis' reports are not very in depth. Q Okay. And so what was the review in this case that you remember? A They just told us what the amount was and that it was paid, and that was it. Q Okay. Now, the letter that's attached, that's at 1251. A Yes. Q June 14, 2010 letter from Mitchell Lewis and Ivy Narissi to Murray Schwartz. Do you see that?
Go ahead. A No, I didn't look at it for accuracy. Q What did you look at it for? A I was looking at it for how the Fund treated pension and it was percentage of wages. And it moved around the diversion, just like they had in the letters that we've written. So it was consistent. Q Okay. Let me show you Exhibit 45.	A I was in the room, but the reviews of Mr. Lewis' reports are not very in depth. Q Okay. And so what was the review in this case that you remember? 2	meeting?	2	talking about June of 2010 do you know
3	A I don't know if I looked at this	3	who got involved in this audit?
4	because it was only the followup to what we	4	A No, I don't. Not offhand. I'm
5	had obtained in April.	5	sure our Payroll folks were involved,
6	Q But this was in fact the result of	6	but
7	the audit, was it not?	7	Q When you say "our Payroll folks,"
8	A Yes.	8	to whom are you referring?
9	Q And it showed The New York Times	9	A People who work in Payroll.
10	owed the Pension Fund money, correct?	10	Q I was actually looking for some
11 12	A Right.	11 12	names.
13	Q And The New York Times paid that	13	A I can't tell you who. I don't
14	money, correct?	14	know. I would imagine I don't know. I don't know.
15	A Right. Q Did The New York Times protest	15	Q Would these people be down in
16	before paying that money?	16	Virginia or
17	A You know, I don't get involved in	17	A Yes, they would be down in
18	the audits, so I'm not really sure what the	18	Virginia. Morris would probably be
19	back and forth may have been.	19	involved, Morris Claffee. I think you met
20	Q Who would have been involved in the	20	him earlier.
21	audits?	21	Q Yes, I did meet him. Twice, in
22	A Our Payroll folks are involved in	22	fact.
23	the audits. Sometimes my folks get involved	23	A Yes, he would probably be one of
24	in the audits.	24	those folks.
25	Q Okay. At this time and we're	25	Q During the discussions that you had

2	Q Was there a requirement to transfer	2	of the first request.
3	them to The New York Times?	3	Q Okay. When were you first aware of
4			the first request?
5	asserted at some point there was some	5	A That was the January 22nd letter.
6			Q Of what year?
7			A 2009.
8	you asked the Fund for a withdrawal	8	Q And that's after an agreement was
9	liability calculation?	9	already reached concerning the closing down
10	A During which period?	10	of C & S?
11	Q During the period that you were	11	A Yes.
12	running these models, running the model or	12	Q And you learned, as I understand
13	models trying to figure out what the	13	from your direct testimony, that the Pension
14	potential partial withdrawal might be.	14	Fund did not provide the information to the
15	A I don't recall when we were in the	15	first request that you at least were
16	midst of that doing that.	16	aware of The New York Times made for
17	I do recall shortly thereafter	17	withdrawal liability.
18	doing that.	18	A That's correct.
19	Q Okay.	19	Q How long after the first request
20	Because when was the first time	20	was second request made?
21	that The New York Times asked for a	21	A To my knowledge, it was about a
22	withdrawal liability estimate from the	22	year.
23	Pension Fund?	23	Q About a year. And why did you wait
24	A I can't tell you when they first	24	a year to ask again?
25	asked. I can tell you when I became aware	25	A We were probably going through the

February 11, 2015 February 11, 2015 February 11, 2015 February 11, 2015 Arbitration proceedings held at American Arbitration Association, 120 Broadway, New York, New York, before BARBARA R. ZELTMAN, a Professional Stenographic Reporter and Notary Public within and for the State of New York.	ARBITRATION - VOLUME II ARBITRATOR IRVINGS: Let's get started. DARREN FRENCH, having been first duly sworn by Arbitrator Irvings, was examined and testified as follows: DIRECT EXAMINATION BY MR. MILLER: Q Mr. French, can you state for the record your full name and the town and state in which you reside. A My name is Darren French. I reside in Edgewater, New Jersey. Q Good morning, Mr. French. A Good morning. C What is your profession, sir? A I'm an actuarial consultant to multiemployer pension funds and to certain contributing employers to the same. Q Are you familiar with the term "enrolled actuary"? A Yes, I am. Q And what is your understanding of the term "enrolled actuary"? A It's a person who is authorized to

Q And are you an enrolled actuary? A Yes, I am. Q And how does one become an enrolled actuary? A There are several exams one needs to take. There are some experience requirements, working in funds or other experience as actuaries, and application. Q And I take it you took and passed the exams to become an enrolled actuary? A Yes, I did. C Can you please summarize for us your general qualifications as an actuary? A I spent about 30 years as an actuarial consultant with Buck Consultants working on all kinds of pension plans but in particular multiemployer plans for the last 20 years or so. Q And when did you leave the employment of Buck? A Around the end of 2013. Q And under what circumstances did

Page 249	Page 251

Page 269 Page 271 1 1 ARBITRATION - VOLUME II ARBITRATION - VOLUME II 2 2 Page 5 and then goes on to Page 6 and doesn't have to have a dedicated pool of 3 3 assets. Page 7. 4 4 In the absence of either of those Can you take a quick moment to 5 5 review 3.6.2, and why don't you explain your two situations that you described, do you 6 6 have an opinion on whether it would be understanding of that section. 7 7 appropriate to use a discount rate other 3.6.2 shows two examples of 8 8 than the investment return assumption to acceptable methods of determining an 9 9 present value liabilities? investment return assumption. 10 10 Would there ever be? What are those two methods? 11 11 One of them is called a building Let me say it again. 12 12 In the absence of either of the two block approach, and the second one is called 13 13 exceptions described in 3.6, do you have an the cash flow matching method. 14 14 opinion on whether it would be appropriate And can you briefly summarize what 15 15 to use a discount rate other than the the building block approach is? 16 16 The building block approach investment return assumption to present 17 17 basically looks at a core inflation number value liability? 18 18 first and then builds upon that based on the Well, let me answer it this way. 19 19 type of assets that might be in the plan or If one's looking for a best estimate of 20 anticipated experience under a pension plan, 20 that you are trying to determine an 21 21 investment return on. then the answer would be no, I can't think 22 22 So if there's equities, you might of one. 23 23 And in your opinion when an actuary figure out what kind of investment premium 24 24 for a multiemployer plan selects an there would be over inflation and then build 25 25 investment return assumption, are they that onto the inflation rate. And the same Page 270 Page 272 1 1 ARBITRATION - VOLUME II ARBITRATION - VOLUME II 2 2 required to do so by virtue of providing sort of thing could apply for real estate or 3 3 actually for debt, for that matter, for bond their best estimate of that anticipated 4 4 experience? holdings. 5 5 Yes. Q In connection with multiemployer Α 6 6 plans, in what circumstances would it be In your opinion, what is the 0 7 7 relationship, if any, between the exceptions appropriate to use the building block method 8 8 to the general rule set forth in Section 3.6 to develop an investment return assumption? 9 9 and the context of withdrawal liability? A In most situations. I mean, most 10 10 plans have equities, they have real estate, The exceptions that are set forth 11 11 they have bonds. This is a very flexible in 3.6, the second exception, which is the 12 12 plan that has unfunded or no assets, clearly method to be used for almost any fund. 13 13 doesn't apply to withdrawal liability. But in particular, would it be 14 14 And there is to my knowledge no appropriate to use the building block method 15 15 rule or governing rule or accounting rule to develop the investment return assumption 16 16 requiring an actuary to use a rate other in connection with multiemployer plans that 17 17 than the investment return assumption for have a diversified pool of assets? 18 18 calculating withdrawal liability. A Yes, absolutely. 19 19 And, in fact, the natural reading What is the cash flow matching Q 20 20 of the law is this is the best estimate of method? 21 21 anticipated experience under the plan. I'm The cash flow matching method 22 22 basically looks at all the series of not sure what else that could be besides the 23 23 investment return assumption. payments that the Fund is going to be able 24 24 Q Can I turn your attention to 3.6.2 to make and tries to match that against the 25 25 of the ASOP. It begins at the bottom of duration of certain bond investments.

Page 275 Page 273 1 1 ARBITRATION - VOLUME II ARBITRATION - VOLUME II 2 2 that's fairly heavy in equities, real And it's a method that makes sense 3 3 estate, commodities or other when you need to cash flow match for 4 whatever reason, either because of a 4 alternative-type investments and not 5 5 terribly heavy on the fixed income side. government standard or because you are 6 6 trying to immunize a portfolio that has such MR. MILLER: Mr. Arbitrator, I 7 7 investments in it. now would like to introduce into 8 8 And indeed, what type of portfolio evidence one of the objected 9 9 of assets would make the cash flow matching exhibits. 10 10 It's Objected Exhibit 4. method appropriate to be used by a 11 multiemployer pension plan in developing its 11 And Mr. Arbitrator, this exhibit 12 12 investment return assumption? has been objected to by the Fund on 13 13 relevance grounds, so I thought if I A Well, a plan, that has, for 14 14 example, all government bonds or maybe might to try and lay a foundation for 15 corporate bonds in particular, particularly 15 relevance. 16 16 less callable-type duration bonds. ARBITRATOR IRVINGS: Go ahead. 17 17 And what about for a plan that has MR. MILLER: Thank you. 18 18 a diversified pool of assets including BY MR. MILLER: 19 19 assets in equity? Q Mr. French, do you recognize this 20 I don't think this method would 20 document? 21 21 make sense because there's no way under this Yes, I do. Α 22 22 method to, for example, try to figure out 0 And what is this? 23 23 This is the ASOP Number 27 adopted the return on the equity portion. Α 24 Based on your review of the 24 by the Actuarial Standards Board September 25 financial statements for the NMDU Pension 25 of 2013. Page 274 Page 276 1 ARBITRATION - VOLUME II 1 ARBITRATION - VOLUME II 2 2 Fund and the Form 5500s for the Pension O And is this document the revised 3 3 Fund, do you have an opinion on whether the version of ASOP 27 that you referred to in 4 4 Pension Fund here used either the building your testimony moments ago? 5 5 block or cash flow matching method to come A Yes, it is. 6 6 up with its investment return assumption? Do you know whether this version of 7 7 Well, I don't think it could have ASOP 27 makes any changes to Section 3.6? 8 8 used the cash flow matching method, but it A Yes, my recollection is --9 9 could certainly have used the building block MR. RICHMAN: I'm going to 10 10 method. object now and we have a enough of a 11 11 Q And why is that? foundation 12 12 Because of the return assumption What we know is that this does not 13 13 that they've had, basically a consistent govern the calculation that was done. 14 14 7.5 percent return, would be the type of The "this" being the Objected Exhibit 4. 15 return I would expect under a building block 15 And so I'm not really sure why 16 16 approach. I don't believe you would get to we're spending time going through this. 17 17 that type of return under a government In fact --18 18 ARBITRATOR IRVINGS: Let's find bond portfolio in this day and age. 19 Just to elaborate on that some 19 Q out. 20 20 MR. MILLER: Let's find out. more. 21 21 What is the nature of the portfolio May I continue to lay the 22 of assets that would be needed to have an 22 foundation? 23 investment return assumption in these times 23 MR. RICHMAN: No, you can't. 24 24 of approximately 7.5 percent? ARBITRATOR IRVINGS: Just 25 25 A A fairly well-diversified portfolio explain why we are doing this.

So in actuality at the time it was put into place, the methodology actually ended up with lower withdrawal liabilities than was the case under the regular funding
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION - VOLUME II A My understanding of how insurance company annuity rates are derived is insurance companies look at the duration of the obligations they're picking up, and they look at the kind of corporate bond portfolio that would kind of match up with it, and that's what they use to typically price their annuities. Q Do you have an opinion on the relationship, if any, between PBGC rates and rates at the time the PBGC rates are published for high-grade corporate bonds? A They should be kind of similar. Given my understanding of how the PBGC rates are determined and how insurance company rates are determined, then one ought to be kind of a proxy for the other, although, in my experience, PBGC rates tend to be a bit lower.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION - VOLUME II risk-free securities? A US Government bond. Q What is your understanding of the origins of the Segal blend method? A My understanding is that the Segal blend methodology dates back to the 1980s sometime after MEPPA was enacted. And it was, I believe, put in effect at a time when many multiemployer plans had very heavy fixed income portfolios. And at the time fixed income investments were earning higher than most actuaries were typically using for their regular funding assumption. So in actuality at the time it was put into place, the methodology actually ended up with lower withdrawal liabilities than was the case under the regular funding rules.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION - VOLUME II A My understanding of how insurance company annuity rates are derived is insurance companies look at the duration of the obligations they're picking up, and they look at the kind of corporate bond portfolio that would kind of match up with it, and that's what they use to typically price their annuities. Q Do you have an opinion on the relationship, if any, between PBGC rates and rates at the time the PBGC rates are published for high-grade corporate bonds? A They should be kind of similar. 		I	

Page 309 Page 311 1 1 ARBITRATION - CONFIDENTIAL **ARBITRATION** 2 2 BY MR. MILLER: Teamsters Fund. 3 3 O And can you describe what the Q Let's return to the subject of 4 difficulties were and the upshot in 4 application of PBGC rates and calculation of 5 5 connection with that client and your withdrawal liability. 6 6 position on the inapplicability of the Segal Can you think of any reason to use 7 7 PBGC rates, particularly in the current method? 8 8 This client, the Central States environment, in calculating withdrawal Α 9 9 Teamsters Fund, when I was the actuary in liability if the actual multiemployer 10 10 pension plan's assets are not invested in 2005, 2006 into early 2007, I think, was high-grade corporate bonds or equivalent 11 experiencing great difficulties. It was a 11 12 12 very unfunded plan. low-risk investments? 13 And United Parcel Service, UPS, was 13 A Well, it wouldn't make sense to me 14 14 the largest employer in the fund, and it was under a standard where you need to have the 15 15 best estimate of anticipated experience pretty well known that they wanted to get 16 16 out and they were very likely going to be under the plan. 17 17 And why is that? pulling out of the fund. And everyone from Q 18 Because the expected return on such 18 Hoffa, Junior to -- you know, wanted to make 19 19 sure either keep them in the fund or, if a fund would be higher than the PBGC rates, 20 they're leaving, that they're going to pay a 20 probably considerably higher in this day and 21 21 very hefty price for it. 22 22 And so eventually the understanding Do you have an opinion on whether 23 23 the Segal blend represents an actuarially became, well, withdrawal liability 24 assumptions would be a good way to do that. 24 reasonable approach to valuation of a plan's 25 However, you know, I had never used 25 unfunded vested benefits for withdrawal Page 310 Page 312 1 ARBITRATION - CONFIDENTIAL 1 **ARBITRATION** 2 2 the Segal blend and was not really liability purposes? 3 3 comfortable with the idea of the Segal Α I do. 4 4 blend. So they decided to hire Segal to be And what is that opinion? 0 5 5 the fund's actuary because Segal was well My opinion of that is actuarial Α 6 6 known as having used that and having -- at unreasonable in the aggregate. 7 7 And why is that? least it would not be as suspicious a 8 8 À Because the funding assumptions -change. 9 9 So you were terminated by the they're using the regular funding 10 10 assumptions which are reasonable and have Central State's Teamsters Fund as its 11 11 enrolled actuary? attested they're best estimates for every 12 12 other purpose except for the investment A Correct. 13 And as a consequence of this 13 O return assumption. 14 14 Now, for regular funding they are matter? 15 15 attesting to the 7.5 percent as being the Correct. Α 16 And did they in fact retain Segal? 16 best estimate of the anticipated experience Q 17 17 or investment return under the fund which Α They did. 18 18 0 And did UPS indeed withdraw? makes sense. And I certainly believe and 19 19 They did. concur with that. Α 20 20 And was the Segal blend method But then they inexplicably use a 0 21 21 indeed applied to determine the withdrawal lower rate for that one purpose and that one 22 22 liability? purpose only. And that one rate has a very 23 23 To the best of my knowledge. I did material impact on the obligations. 24 24 not see the calculation. Who serves as the actuary for the 25 25 NMDU Pension Fund here? (End of Confidential portion.)

Page 313 Page 315 1 **ARBITRATION** 1 **ARBITRATION** 2 2 A My understanding it's the Segal O I see. 3 3 Company. In calculating the monetary impact 4 And do you have an understanding 4 of the use of the Segal blend assumptions 5 whether the Segal Company in fact used the 5 here, were you able to go back the full 6 6 Segal blend method to calculate withdrawal 20 years? 7 7 liability against The New York Times? À No, I was not. 8 8 Yes, they did. So do you have an opinion on Α 9 9 And did you calculate the monetary whether the impact that you did calculate, Q 10 10 the roughly 6, \$7 million impact is the impact of the use of the Segal blend 11 assumptions here as opposed to the use of 11 precise calculation of the impact? 12 the ordinary 7.5 percent funding rate? 12 It is only precise if the 13 13 Yes. I did. assumption were to change in that year, and Α And can you summarize what your 14 14 that's probably not the best way to do it. O 15 1.5 calculation was of that differential? So it is probably not the precise 16 16 A My calculation was somewhere above answer. 17 \$19 million versus the Fund's calculation I 17 Okay. And what would you need to O 18 18 think close to \$26 million. do to make the precise calculation of the 19 19 impact of application of the Segal blend on So divide what they calculate by 20 what I calculated is about a 33 percent 20 the withdrawal liability assessment against 21 21 difference; 33 percent higher than the value The Times? 22 22 I would have gotten using the Fund's regular A I would need really the last 23 23 assumptions. 20 years of reports and all of the backup 24 24 And briefly summarize how you went calculations. There is a lot of 25 25 complications that would get involved in about making that calculation. Page 314 Page 316 1 **ARBITRATION** 1 ARBITRATION 2 2 A The numbers that I needed to do the that. 3 3 calculation were already in the Segal Have you made any estimate on what O 4 4 the amount would be if you in fact received reports. 5 5 all of the data going back the 20 years to So I simply redid the calculations, 6 6 only changing the assumption in the last perform that calculation? 7 year, the number I had readily available, 7 I have made some further estimates, 8 8 and was able to redetermine what the yes. 9 9 withdrawal liability would have been based O And what is that estimate? 10 10 on that assumption. Since this came up in my deposition 11 11 Well, let's drill down on that some as to whether, you know, what impact it Q 12 might have and I think some guesses at the 12 more. 13 13 time, I looked back at what I did have which A Okav. 14 14 O What method does this multiemployer was four years going back from, I think from 15 Pension Fund use to calculate withdrawal 15 May 31, 2009. 16 16 And based on that, the number that liability? 17 17 They use the so-called presumptive I calculated would have been even lower than 18 18 method. what I calculated using just the last year 19 19 by roughly another half a million dollars. And how many years in looking back 20 20 on underfunding does a multiemployer plan And by "the lower number," you mean 21 21 examine in connection with application of the withdrawal liability number? 22 the presumptive method? 22 Yes, lower withdrawal liability 23 23 The presumptive method goes back number is what I mean. 24 24 20 years in valuations. So there's 20 years And I think you previously 25 25 of calculations to review. testified that you did review the other

Page 317 Page 319 1 1 ARBITRATION **ARBITRATION** 2 2 actuarial assumptions that Segal employed in allow in the aggregate to be reasonable. 3 3 And, you know, as we've stated earlier, the estimating and valuing the Pension Fund's 4 4 unfunded pension benefits for withdrawal impact is significant, at least 33 percent. 5 5 By virtue of calculating the liability purposes. 6 6 Is that a correct summary of your withdrawal liability for The Times using the 7 7 prior testimony on that subject? Segal blend as opposed to the ordinary 8 8 7.5 percent fund rate, do you have an Yes it is 9 9 And those assumptions were in what opinion on whether there will be an impact 10 10 on the other contributing employers to the regard? What types of additional Pension Fund if the 7.5 percent best 11 assumptions were they? 11 12 12 Those were the Mortality Table estimate is ultimately realized? 13 13 assumptions, the percentage of retirees, Α Yes. 14 14 married retirement rate assumptions and any O And what is that opinion? 15 15 other assumptions that were shown in the Α Well, as I mentioned earlier, by 16 16 one employer paying more than its fair 17 17 share, by one employer paying based on a low I reviewed those against my general 18 18 knowledge of multiemployer plans and the discount rate but the Fund actually 19 19 specific type of plans and plan provisions achieving a high investment return, it means 20 20 they had. And they all struck me as that portion of the plan would become more 21 perfectly reasonable in line what I would 21 than fully funded. 22 22 typically expect assumptions to be. Since it's one pool of assets to 23 23 provide for one set of benefits, the other Thank you. employers would necessarily get the benefit 24 With that in mind, assuming that 24 25 25 of that 7.5 percent return over the Segal these other assumptions that were employed Page 318 Page 320 1 ARBITRATION 1 ARBITRATION 2 2 were actuarially reasonable, do you have an blend return. 3 3 opinion on whether the actuarial assumptions Q And just to drill down on this a 4 4 used to compute the unfunded vested benefits little further. 5 5 here for this withdrawal liability So do you have an opinion on 6 6 calculation were reasonable or unreasonable whether employers would be better off or 7 7 worse off following the withdrawal of in the aggregate? 8 8 I do have an opinion. The New York Times in the event the best Α 9 9 O And what is that opinion? estimate of 7.5 percent is obtained relative 10 10 That they were not reasonable in to where they would be if there had not been 11 11 an assessment of withdrawal liability? the aggregate. 12 12 And why is that? A Yes. For reasons that we just 13 stated, the other employers are better off 13 Because all of the assumptions but 14 14 one were reasonable and presumably best because The Times is essentially overfunding 15 its portion of the unfunded benefits. 15 estimate assumptions. 16 16 And in such event, would The Times The one assumption that was not was 17 17 in effect be paying more or less than its an assumption that was an investment return 18 allocable share of the unfunded vested 18 assumption which was much lower than what 19 benefits in the Pension Fund? 19 appeared to be the best estimate return. 20 20 Α More And that one assumption has a very large 21 21 impact on the numbers. It's the most Mr. French, I recall you testified

22

23

important assumption.

And like I said, there's no

go in the other direction that would even

counterbalancing other assumption that would

moments ago that you do not use the Segal

blend approach when you -- or did not use

the Segal blend approach when you served as

an enrolled actuary to a multiemployer fund.

Page 321 Page 323 1 1 ARBITRATION ARBITRATION 2 2 What was your practice in And in that circumstance, the 3 3 connection with calculating or estimating liabilities of the fund would go up. 4 4 withdrawal liability? So in anticipation of that 5 5 My typical practice on withdrawal occurring, the withdrawal liability was 6 6 liability was to use the same investment changed -- well, I changed the withdrawal 7 7 return assumption as for regular funding. liability assumptions to reflect that 8 8 Was there ever an occasion in which possibility or that if a big employer or two 9 9 you departed from that general practice? or more withdrew from the fund and the 10 10 A Yes. trustees were going to change the investment 11 11 mix so that it would be a more O And what was that? 12 12 I think on one occasion where under conservative -- and "more conservative." Α 13 13 the Consolidated Retirement Fund, was a meaning lower investment return portfolio --14 14 then, of course, that would make sense to client of mine --15 15 And can you explain the use a lower withdrawal liability assumption. 16 16 circumstances in connection with that Q And in that situation, did you have 17 17 departure from your practice? an expectation of what the funding rate 18 18 would be in connection with that plan Α Yes. 19 19 The Consolidated Retirement Fund is following the withdrawal of one or more of 20 a fund who had basically four large key 20 these significant contributors? 21 21 employers. One of those employers, UNITE Yes. If the withdrawals indeed 22 22 HERE, was threatening to leave the fund. It occurred and the trustees followed through 23 23 was probably one of the strongest and changed the investment portfolio, 24 24 financially of the employers. And the investment mix to be more conservative, 25 25 second employer, I think was Amalgamated then, of course, the ongoing regular funding Page 322 Page 324 1 1 ARBITRATION **ARBITRATION** 2 Bank, was in grave danger of going out of 2 assumptions would change to a lower discount 3 3 business. And there were other issues with rate as well. 4 4 some of other employers especially related, Q And did you have any expectation of 5 5 whether and the extent to which that revised as they're kind of interrelated entities in 6 6 funding rate would migrate to the withdrawal some respects. 7 7 liability discount rate? So there was a concern that there 8 8 would be a very large withdrawal or several A Well, at that point --9 9 ARBITRATOR IRVINGS: I'm sorry. large withdrawals from the plan and whether 10 in the event of that occurring, what would 10 I missed that. 11 11 happen to the fund. MR. MILLER: Sure. 12 And, you know, trustees in this 12 BY MR. MILLER: 13 13 fund were also plan participants. This was Q Did you have any expectation of 14 a union staff fund where the trustees of the 14 whether the revised funding rate that would 15 15 fund had very large, very substantial occur as a consequence of the change in the 16 benefits being paid from this fund. 16 investment of assets would migrate to the 17 So their indication to me was, 17 withdrawal liability discount rate that you 18 look, if this kind of thing happens, we're 18 had determined? 19 ARBITRATOR IRVINGS: I guess going to have to change -- we are not going 19 20 to invest -- this was a fund that was 20 I'm confused because I thought he 21 invested very heavily in equities and real 21 just said that he started with the 22 estate and alternative investments. They're 22 lower rate for withdrawal liability 23 going to very seriously consider changing 23 and then said it would migrate to the 24 the investment portfolio mix if these strong 24 funding. 25 25 employers withdraw from the plan. MR. MILLER: Why don't you

	Page 325		Page 327

Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate as the discount rate for withdrawal	2 3 4 5 6 7 8 9 10 11	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that?
2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION best estimate is going to be a higher number than the risk-free return; otherwise, why would you be investing in those things. Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate	2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that? A Because this Fund is investing
2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION best estimate is going to be a higher number than the risk-free return; otherwise, why would you be investing in those things. Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate as the discount rate for withdrawal liability purposes, is that commonly done by	2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION best estimate is going to be a higher number than the risk-free return; otherwise, why would you be investing in those things. Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate as the discount rate for withdrawal liability purposes, is that commonly done by actuaries? A It's not commonly done by actuaries, but that, I have seen.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that? A Because this Fund is investing fairly heavily in equities and real estate and is expected my expectation and certainly the plan actuaries' expectation,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION best estimate is going to be a higher number than the risk-free return; otherwise, why would you be investing in those things. Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate as the discount rate for withdrawal liability purposes, is that commonly done by actuaries? A It's not commonly done by actuaries, but that, I have seen. Q Would you describe that practice as	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that? A Because this Fund is investing fairly heavily in equities and real estate and is expected my expectation and certainly the plan actuaries' expectation, which is the most important one, is that the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	ARBITRATION best estimate is going to be a higher number than the risk-free return; otherwise, why would you be investing in those things. Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate as the discount rate for withdrawal liability purposes, is that commonly done by actuaries? A It's not commonly done by actuaries, but that, I have seen. Q Would you describe that practice as unusual?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that? A Because this Fund is investing fairly heavily in equities and real estate and is expected my expectation and certainly the plan actuaries' expectation, which is the most important one, is that the Fund will earn better than a risk-free rate.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION best estimate is going to be a higher number than the risk-free return; otherwise, why would you be investing in those things. Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate as the discount rate for withdrawal liability purposes, is that commonly done by actuaries? A It's not commonly done by actuaries, but that, I have seen. Q Would you describe that practice as unusual? A I would describe that as unusual,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that? A Because this Fund is investing fairly heavily in equities and real estate and is expected my expectation and certainly the plan actuaries' expectation, which is the most important one, is that the Fund will earn better than a risk-free rate. Q Isn't it true, though, that if the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION best estimate is going to be a higher number than the risk-free return; otherwise, why would you be investing in those things. Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate as the discount rate for withdrawal liability purposes, is that commonly done by actuaries? A It's not commonly done by actuaries, but that, I have seen. Q Would you describe that practice as unusual? A I would describe that as unusual, yes.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that? A Because this Fund is investing fairly heavily in equities and real estate and is expected my expectation and certainly the plan actuaries' expectation, which is the most important one, is that the Fund will earn better than a risk-free rate. Q Isn't it true, though, that if the Fund does not ultimately earn 7.5 percent,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ARBITRATION best estimate is going to be a higher number than the risk-free return; otherwise, why would you be investing in those things. Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate as the discount rate for withdrawal liability purposes, is that commonly done by actuaries? A It's not commonly done by actuaries, but that, I have seen. Q Would you describe that practice as unusual? A I would describe that as unusual, yes. MR. MILLER: Mr. Arbitrator, I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that? A Because this Fund is investing fairly heavily in equities and real estate and is expected my expectation and certainly the plan actuaries' expectation, which is the most important one, is that the Fund will earn better than a risk-free rate. Q Isn't it true, though, that if the Fund does not ultimately earn 7.5 percent, the withdrawing employer would end up paying
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	ARBITRATION best estimate is going to be a higher number than the risk-free return; otherwise, why would you be investing in those things. Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate as the discount rate for withdrawal liability purposes, is that commonly done by actuaries? A It's not commonly done by actuaries, but that, I have seen. Q Would you describe that practice as unusual? A I would describe that as unusual, yes. MR. MILLER: Mr. Arbitrator, I have about ten minutes, tops, so	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that? A Because this Fund is investing fairly heavily in equities and real estate and is expected my expectation and certainly the plan actuaries' expectation, which is the most important one, is that the Fund will earn better than a risk-free rate. Q Isn't it true, though, that if the Fund does not ultimately earn 7.5 percent, the withdrawing employer would end up paying less than what is necessary to fund its
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ARBITRATION best estimate is going to be a higher number than the risk-free return; otherwise, why would you be investing in those things. Q In your experience, is it common for actuaries to use the risk-free rate as the discount rate for funding purposes? A For regular funding purposes, no. I don't know that I've ever heard of that. At least except for a fund that was invested purely in risk-free investments. Q What about using the risk-free rate as the discount rate for withdrawal liability purposes, is that commonly done by actuaries? A It's not commonly done by actuaries, but that, I have seen. Q Would you describe that practice as unusual? A I would describe that as unusual, yes. MR. MILLER: Mr. Arbitrator, I	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ARBITRATION argument? A My reaction to that argument is, yes, if in fact the plan doesn't achieve what we expect, then, sure, they're going to underfund the portion of plan. Q Do you have a judgment as to whether Dr. Kra's theory is consistent with the requirement of a best estimate of anticipated future investment experience? A Yes. I can't square it with that requirement. Q And why is that? A Because this Fund is investing fairly heavily in equities and real estate and is expected my expectation and certainly the plan actuaries' expectation, which is the most important one, is that the Fund will earn better than a risk-free rate. Q Isn't it true, though, that if the Fund does not ultimately earn 7.5 percent, the withdrawing employer would end up paying

Q And do you have an opinion on what the policy view or rationale is for employing PBGC rates to discount liabilities in the case of a single-employer pension termination? A Well, I don't know for certain, but certainly the idea in the case of a single plan termination is you are going to purchase annuities from an insurance company. And so if you are going to purchase
2 3 4 5 6 7 8 9 10 11 12 13 14 15	ARBITRATION the plan. And, you know, we don't know. It could be 5, it could be 9, but the best estimate is 7 and a half. Q Are you familiar with the term "actuarial bias"? A Yes. Q And what is your understanding of actuarial bias? A My understanding of actuarial bias is an assumption that would systemically either overprovide or overfund a liability or systemically underfund a liability as opposed to trying to get at your true,	2 3 4 5 6 7 8 9 10 11 12 13 14 15	ARBITRATION statute requires the use of PBGC rates for discount rates. Q And do you have an opinion on what the policy view or rationale is for employing PBGC rates to discount liabilities in the case of a single-employer pension termination? A Well, I don't know for certain, but certainly the idea in the case of a single plan termination is you are going to purchase annuities from an insurance company.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION the plan. And, you know, we don't know. It could be 5, it could be 9, but the best estimate is 7 and a half. Q Are you familiar with the term "actuarial bias"? A Yes. Q And what is your understanding of actuarial bias? A My understanding of actuarial bias is an assumption that would systemically either overprovide or overfund a liability or systemically underfund a liability as opposed to trying to get at your true, accurate best estimate.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION statute requires the use of PBGC rates for discount rates. Q And do you have an opinion on what the policy view or rationale is for employing PBGC rates to discount liabilities in the case of a single-employer pension termination? A Well, I don't know for certain, but certainly the idea in the case of a single plan termination is you are going to purchase annuities from an insurance company. And so if you are going to purchase annuities from an insurance company, then PBGC, of course, is the exactly the type of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION the plan. And, you know, we don't know. It could be 5, it could be 9, but the best estimate is 7 and a half. Q Are you familiar with the term "actuarial bias"? A Yes. Q And what is your understanding of actuarial bias? A My understanding of actuarial bias is an assumption that would systemically either overprovide or overfund a liability or systemically underfund a liability as opposed to trying to get at your true, accurate best estimate. Q Do you have an opinion as to	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION statute requires the use of PBGC rates for discount rates. Q And do you have an opinion on what the policy view or rationale is for employing PBGC rates to discount liabilities in the case of a single-employer pension termination? A Well, I don't know for certain, but certainly the idea in the case of a single plan termination is you are going to purchase annuities from an insurance company. And so if you are going to purchase annuities from an insurance company, then PBGC, of course, is the exactly the type of rate that's required. And, of course, the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION the plan. And, you know, we don't know. It could be 5, it could be 9, but the best estimate is 7 and a half. Q Are you familiar with the term "actuarial bias"? A Yes. Q And what is your understanding of actuarial bias? A My understanding of actuarial bias is an assumption that would systemically either overprovide or overfund a liability or systemically underfund a liability as opposed to trying to get at your true, accurate best estimate. Q Do you have an opinion as to whether if an actuary's best estimate of how	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION statute requires the use of PBGC rates for discount rates. Q And do you have an opinion on what the policy view or rationale is for employing PBGC rates to discount liabilities in the case of a single-employer pension termination? A Well, I don't know for certain, but certainly the idea in the case of a single plan termination is you are going to purchase annuities from an insurance company. And so if you are going to purchase annuities from an insurance company, then PBGC, of course, is the exactly the type of
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	ARBITRATION the plan. And, you know, we don't know. It could be 5, it could be 9, but the best estimate is 7 and a half. Q Are you familiar with the term "actuarial bias"? A Yes. Q And what is your understanding of actuarial bias? A My understanding of actuarial bias is an assumption that would systemically either overprovide or overfund a liability or systemically underfund a liability or systemically underfund a liability as opposed to trying to get at your true, accurate best estimate. Q Do you have an opinion as to whether if an actuary's best estimate of how a pool of assets is to perform is	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	ARBITRATION statute requires the use of PBGC rates for discount rates. Q And do you have an opinion on what the policy view or rationale is for employing PBGC rates to discount liabilities in the case of a single-employer pension termination? A Well, I don't know for certain, but certainly the idea in the case of a single plan termination is you are going to purchase annuities from an insurance company. And so if you are going to purchase annuities from an insurance company, then PBGC, of course, is the exactly the type of rate that's required. And, of course, the statute specifically notes that in this case.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION the plan. And, you know, we don't know. It could be 5, it could be 9, but the best estimate is 7 and a half. Q Are you familiar with the term "actuarial bias"? A Yes. Q And what is your understanding of actuarial bias? A My understanding of actuarial bias is an assumption that would systemically either overprovide or overfund a liability or systemically underfund a liability as opposed to trying to get at your true, accurate best estimate. Q Do you have an opinion as to whether if an actuary's best estimate of how a pool of assets is to perform is 7.5 percent, but assumes a different	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION statute requires the use of PBGC rates for discount rates. Q And do you have an opinion on what the policy view or rationale is for employing PBGC rates to discount liabilities in the case of a single-employer pension termination? A Well, I don't know for certain, but certainly the idea in the case of a single plan termination is you are going to purchase annuities from an insurance company. And so if you are going to purchase annuities from an insurance company, then PBGC, of course, is the exactly the type of rate that's required. And, of course, the statute specifically notes that in this case. Q Do multiemployer pension funds
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION the plan. And, you know, we don't know. It could be 5, it could be 9, but the best estimate is 7 and a half. Q Are you familiar with the term "actuarial bias"? A Yes. Q And what is your understanding of actuarial bias? A My understanding of actuarial bias is an assumption that would systemically either overprovide or overfund a liability or systemically underfund a liability as opposed to trying to get at your true, accurate best estimate. So really, while it may first come into effect in the calculation May 31, 2009, that necessarily needs to go back 20 years. And so Q But if the interest assumption at that time of the Pension Fund was 6 percent
ARBITRATION A The regular ongoing investment assumption, the Segal valuation does show that number, correct. Q And it's also used in the calculation of The Times' withdrawal liability? A It is partially used in the calculation of The Times' withdrawal liability, yes. ARBITRATOR IRVINGS: I'm sorry. Can we just go back to your first question on that. MR. RICHMAN: Yes. ARBITRATOR IRVINGS: I just missed the beginning of the question.	ARBITRATION year. A For every year that I looked at it. Q Okay. I'm just focusing on the year that the assumption would have been actually used to calculate the Segal blend. A Well, remember, this Fund uses the presumptive method, so it goes back 20 years. So really, while it may first come into effect in the calculation May 31, 2009, that necessarily needs to go back 20 years. And so Q But if the interest assumption at that time of the Pension Fund was 6 percent A At what time?
ARBITRATION A The regular ongoing investment assumption, the Segal valuation does show that number, correct. Q And it's also used in the calculation of The Times' withdrawal liability? A It is partially used in the calculation of The Times' withdrawal liability, yes. ARBITRATOR IRVINGS: I'm sorry. Can we just go back to your first question on that. MR. RICHMAN: Yes. ARBITRATOR IRVINGS: I just missed the beginning of the question. Was there a specific rate that you	ARBITRATION year. A For every year that I looked at it. Q Okay. I'm just focusing on the year that the assumption would have been actually used to calculate the Segal blend. A Well, remember, this Fund uses the presumptive method, so it goes back 20 years. So really, while it may first come into effect in the calculation May 31, 2009, that necessarily needs to go back 20 years. And so Q But if the interest assumption at that time of the Pension Fund was 6 percent A At what time? Q At the March 31, 2009.
ARBITRATION A The regular ongoing investment assumption, the Segal valuation does show that number, correct. Q And it's also used in the calculation of The Times' withdrawal liability? A It is partially used in the calculation of The Times' withdrawal liability, yes. ARBITRATOR IRVINGS: I'm sorry. Can we just go back to your first question on that. MR. RICHMAN: Yes. ARBITRATOR IRVINGS: I just missed the beginning of the question. Was there a specific rate that you mentioned?	ARBITRATION year. A For every year that I looked at it. Q Okay. I'm just focusing on the year that the assumption would have been actually used to calculate the Segal blend. A Well, remember, this Fund uses the presumptive method, so it goes back 20 years. So really, while it may first come into effect in the calculation May 31, 2009, that necessarily needs to go back 20 years. And so Q But if the interest assumption at that time of the Pension Fund was for percent A At what time? Q At the March 31, 2009. A Okay. If it was.
ARBITRATION A The regular ongoing investment assumption, the Segal valuation does show that number, correct. Q And it's also used in the calculation of The Times' withdrawal liability? A It is partially used in the calculation of The Times' withdrawal liability, yes. ARBITRATOR IRVINGS: I'm sorry. Can we just go back to your first question on that. MR. RICHMAN: Yes. ARBITRATOR IRVINGS: I just missed the beginning of the question. Was there a specific rate that you mentioned? MR. RICHMAN: No, no, I didn't.	ARBITRATION year. A For every year that I looked at it. Q Okay. I'm just focusing on the year that the assumption would have been actually used to calculate the Segal blend. A Well, remember, this Fund uses the presumptive method, so it goes back 20 years. So really, while it may first come into effect in the calculation May 31, 2009, that necessarily needs to go back 20 years. And so Q But if the interest assumption at that time of the Pension Fund was fe percent A At what time? Q At the March 31, 2009. A Okay. If it was. Q That's why I said if it was.
ARBITRATION A The regular ongoing investment assumption, the Segal valuation does show that number, correct. Q And it's also used in the calculation of The Times' withdrawal liability? A It is partially used in the calculation of The Times' withdrawal liability, yes. ARBITRATOR IRVINGS: I'm sorry. Can we just go back to your first question on that. MR. RICHMAN: Yes. ARBITRATOR IRVINGS: I just missed the beginning of the question. Was there a specific rate that you mentioned? MR. RICHMAN: No, no, I didn't. What I'm asking, which Darren just	ARBITRATION year. A For every year that I looked at it. Q Okay. I'm just focusing on the year that the assumption would have been actually used to calculate the Segal blend. A Well, remember, this Fund uses the presumptive method, so it goes back 20 years. So really, while it may first come into effect in the calculation May 31, 2009, that necessarily needs to go back 20 years. And so Q But if the interest assumption at that time of the Pension Fund was for percent A At what time? Q At the March 31, 2009. A Okay. If it was. Q That's why I said if it was. A Trying to follow you.
ARBITRATION A The regular ongoing investment assumption, the Segal valuation does show that number, correct. Q And it's also used in the calculation of The Times' withdrawal liability? A It is partially used in the calculation of The Times' withdrawal liability, yes. ARBITRATOR IRVINGS: I'm sorry. Can we just go back to your first question on that. MR. RICHMAN: Yes. ARBITRATOR IRVINGS: I just missed the beginning of the question. Was there a specific rate that you mentioned? MR. RICHMAN: No, no, I didn't. What I'm asking, which Darren just answered, is to whether the investment	ARBITRATION year. A For every year that I looked at it. Q Okay. I'm just focusing on the year that the assumption would have been actually used to calculate the Segal blend. A Well, remember, this Fund uses the presumptive method, so it goes back 20 years. So really, while it may first come into effect in the calculation May 31, 2009, that necessarily needs to go back 20 years. And so Q But if the interest assumption at that time of the Pension Fund was fe percent A At what time? Q At the March 31, 2009. A Okay. If it was. Q That's why I said if it was. A Trying to follow you. Q If it were and that was, in your
ARBITRATION A The regular ongoing investment assumption, the Segal valuation does show that number, correct. Q And it's also used in the calculation of The Times' withdrawal liability? A It is partially used in the calculation of The Times' withdrawal liability, yes. ARBITRATOR IRVINGS: I'm sorry. Can we just go back to your first question on that. ARBITRATOR IRVINGS: I just missed the beginning of the question. Was there a specific rate that you mentioned? MR. RICHMAN: No, no, I didn't. What I'm asking, which Darren just answered, is to whether the investment assumption that is the plan's ongoing	ARBITRATION year. A For every year that I looked at it. Q Okay. I'm just focusing on the year that the assumption would have been actually used to calculate the Segal blend. A Well, remember, this Fund uses the presumptive method, so it goes back 20 years. So really, while it may first come into effect in the calculation May 31, 2009, that necessarily needs to go back 20 years. And so Q But if the interest assumption at that time of the Pension Fund was fe percent A At what time? Q At the March 31, 2009. A Okay. If it was. Q That's why I said if it was. A Trying to follow you. Q If it were and that was, in your words, the actuary's best estimate, would
ARBITRATION A The regular ongoing investment assumption, the Segal valuation does show that number, correct. Q And it's also used in the calculation of The Times' withdrawal liability? A It is partially used in the calculation of The Times' withdrawal liability, yes. ARBITRATOR IRVINGS: I'm sorry. Can we just go back to your first question on that. MR. RICHMAN: Yes. ARBITRATOR IRVINGS: I just missed the beginning of the question. Was there a specific rate that you mentioned? MR. RICHMAN: No, no, I didn't. What I'm asking, which Darren just answered, is to whether the investment assumption that is the plan's ongoing investment assumption, whether that was	ARBITRATION year. A For every year that I looked at it. Q Okay. I'm just focusing on the year that the assumption would have been actually used to calculate the Segal blend. A Well, remember, this Fund uses the presumptive method, so it goes back 20 years. So really, while it may first come into effect in the calculation May 31, 2009, that necessarily needs to go back 20 years. And so Q But if the interest assumption at that time of the Pension Fund was fo percent A At what time? Q At the March 31, 2009. A Okay. If it was. Q That's why I said if it was. A Trying to follow you. Q If it were and that was, in your words, the actuary's best estimate, would that be the component that would be used for
ARBITRATION A The regular ongoing investment assumption, the Segal valuation does show that number, correct. Q And it's also used in the calculation of The Times' withdrawal liability? A It is partially used in the calculation of The Times' withdrawal liability, yes. ARBITRATOR IRVINGS: I'm sorry. Can we just go back to your first question on that. MR. RICHMAN: Yes. ARBITRATOR IRVINGS: I just missed the beginning of the question. Was there a specific rate that you mentioned? MR. RICHMAN: No, no, I didn't. What I'm asking, which Darren just answered, is to whether the investment assumption that is the plan's ongoing investment assumption, whether that was	ARBITRATION year. A For every year that I looked at it. Q Okay. I'm just focusing on the year that the assumption would have been actually used to calculate the Segal blend. A Well, remember, this Fund uses the presumptive method, so it goes back 20 years. So really, while it may first come into effect in the calculation May 31, 2009, that necessarily needs to go back 20 years. And so Q But if the interest assumption at that time of the Pension Fund was fe percent A At what time? Q At the March 31, 2009. A Okay. If it was. Q That's why I said if it was. A Trying to follow you. Q If it were and that was, in your words, the actuary's best estimate, would

	Page 357		Page 359
1	ARBITRATION	1	ARBITRATION
2	A Yes, I believe it would.	2	A Because they didn't.
3	Q Okay. So it would be the March 31,	3	Q Well, but you know all of the
4	2009 interest assumption?	4	information that you'd need to determine
5	A For that one part of the	5	whether it was an appropriate rate, you
6	calculation.	6	knew right? Yes?
7	Now, remember, it goes back	7	A Yes.
8	20 years, so each it matters each and	8	MR. MILLER: But, objection.
9	every year going back 20 years what that	9	You asked him that question in
10	assumption is. It affects the calculation.	10	connection with if the actuary had
11	Q And I keep saying March.	11	picked that assumption. Are you now
12	A I'm sorry.	12	asking him a different question?
13	Q It's May 31st.	13	MR. RICHMAN: We're beyond
14	A Thank you.	14	that. Stay with us.
15	Q But when you did your	15	BY MR. RICHMAN:
16	recalculation, what you focused on was the	16	Q So you had the information
17	last year, did you not?	17	A Yes.
18	A The one I used in my expert report,	18	Q to determine whether 6 and a
19	yes.	19	half percent, that's May 31, 2009, was a
20	Q So, and you testified here today	20	reasonable interest rate for the Pension
21	that you think the 7 and a half percent that	21	Fund, correct?
22	was used as the investment assumption for	22	A Yes. I could figure that out.
23	May 31, 2009 was a reasonable assumption,	23	Q Okay.
24	correct?	24	And as I understand it, in fact,
25	A Yes. And I do think that.	25	you examined the portfolio of the Fund for
	Page 358		Page 360

	ARBITRATION		ARBITRATION
2	ARBITRATION Q And would 7 percent have been a	2	ARBITRATION various years?
2 3	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose	2	ARBITRATION various years? A Yes.
2 3 4	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that?	2 3 4	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009.
2 3 4 5	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly.	2 3 4 5	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of
2 3 4 5 6	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent?	2 3 4 5	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009.
2 3 4 5 6 7	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the	2 3 4 5 6 7	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We
2 3 4 5 6 7 8	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things.	2 3 4 5 6 7 8	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out
2 3 4 5 6 7 8	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things. Q We know what the asset mix was.	2 3 4 5 6 7 8	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out something with the math already done,
2 3 4 5 6 7 8 9	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things. Q We know what the asset mix was. A I wouldn't have picked a rate like	2 3 4 5 6 7 8 9	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out something with the math already done, whatever you'd like to do.
2 3 4 5 6 7 8 9 10	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things. Q We know what the asset mix was. A I wouldn't have picked a rate like that, and this actuary didn't pick a rate	2 3 4 5 6 7 8 9 10	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out something with the math already done, whatever you'd like to do. What I'm focused on is Page 14,
2 3 4 5 6 7 8 9 10 11	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things. Q We know what the asset mix was. A I wouldn't have picked a rate like that, and this actuary didn't pick a rate like that.	2 3 4 5 6 7 8 9 10 11 12	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out something with the math already done, whatever you'd like to do. What I'm focused on is Page 14, which is FUND-1580.
2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things. Q We know what the asset mix was. A I wouldn't have picked a rate like that, and this actuary didn't pick a rate like that. Q That's not the question. The question is pretty simple. A Okay.	2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out something with the math already done, whatever you'd like to do. What I'm focused on is Page 14, which is FUND-1580. A 1580. Landscape page?
2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things. Q We know what the asset mix was. A I wouldn't have picked a rate like that, and this actuary didn't pick a rate like that. Q That's not the question. The question is pretty simple.	2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out something with the math already done, whatever you'd like to do. What I'm focused on is Page 14, which is FUND-1580. A 1580. Landscape page? Q I don't know what a landscape is.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things. Q We know what the asset mix was. A I wouldn't have picked a rate like that, and this actuary didn't pick a rate like that. Q That's not the question. The question is pretty simple. A Okay.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out something with the math already done, whatever you'd like to do. What I'm focused on is Page 14, which is FUND-1580. A 1580. Landscape page? Q I don't know what a landscape is. ARBITRATOR IRVINGS: Meaning
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things. Q We know what the asset mix was. A I wouldn't have picked a rate like that, and this actuary didn't pick a rate like that. Q That's not the question. The question is pretty simple. A Okay. Q And that is: Would 6 and a half	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out something with the math already done, whatever you'd like to do. What I'm focused on is Page 14, which is FUND-1580. A 1580. Landscape page? Q I don't know what a landscape is. ARBITRATOR IRVINGS: Meaning it's printed this way.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things. Q We know what the asset mix was. A I wouldn't have picked a rate like that, and this actuary didn't pick a rate like that. Q That's not the question. The question is pretty simple. A Okay. Q And that is: Would 6 and a half percent have been, in your mind, a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out something with the math already done, whatever you'd like to do. What I'm focused on is Page 14, which is FUND-1580. A 1580. Landscape page? Q I don't know what a landscape is. ARBITRATOR IRVINGS: Meaning it's printed this way. MR. RICHMAN: Oh, really.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? A I don't know. It depends on the asset mix. Depends on a lot of things. Q We know what the asset mix was. A I wouldn't have picked a rate like that, and this actuary didn't pick a rate like that. Q That's not the question. The question is pretty simple. A Okay. Q And that is: Would 6 and a half percent have been, in your mind, a reasonable rate if the actuary had picked	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION various years? A Yes. Q So let's take a look at the portfolio as for the Pension Fund as of May 31, 2009. And we're going to Exhibit 7. We can do some math together or I can hand out something with the math already done, whatever you'd like to do. What I'm focused on is Page 14, which is FUND-1580. A 1580. Landscape page? Q I don't know what a landscape is. ARBITRATOR IRVINGS: Meaning it's printed this way. MR. RICHMAN: Oh, really. BY MR. RICHMAN:
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION Q And would 7 percent have been a reasonable assumption, if the actuary chose that? A Possibly. Q How about 6 and a half percent? His testimony earlier was that what he did was he made a judgment about the investment return assumption that was made by the plan's actuary here, and he further testified that he thought that that actuary had engaged in a technical method called the building block method. I mean, Mr. Richman can ask him if he engaged in any building block method exercise. There's no foundation for him to be able to render a judgment on what the investment return assumption should be, based on rough figures of asset classes, without at least knowing more detail of those asset classes and applying the
ARBITRATION A That would be an equity fund, I believe. Q And let's add up the Intech Risk Managed Large Cap Growth Fund. A So we are going to add up the Russell 1000, which is 9.6 plus. Q The Intech Risk Managed Large Cap Growth Fund. And the LongView 1500 Total Market Index Fund. THE WITNESS: I'm going to use my calculator because that one confounds me. A Okay. Let's try this again. Q So we got those three together. A Russell 1000, that's 9.6. And the next one was? Q LongView 1500. A Okay. 26.0. Okay. Q And then the Intech fund. A 11.9. Okay. So we have 47.5 million.	ARBITRATION actuarial methods to calculate an investment return assumption in connection with this portfolio. Mr. Richman is now asking him for an invest return assumption decision to be made. His testimony earlier was that what he did was he made a judgment about the investment return assumption that was made by the plan's actuary here, and he further testified that he thought that that actuary had engaged in a technical method called the building block method. I mean, Mr. Richman can ask him if he engaged in any building block method resercise. There's no foundation for him to be able to render a judgment on what the investment return assumption should be, based on rough figures of asset classes, without at least knowing more detail of

2 3 4 5 6 7 8 9 10	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this	2 3 4 5 6 7 8 9 10	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay.
2 3 4 5 6 7 8 9 10 11	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it,	2 3 4 5 6 7 8 9 10 11 12	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay. Let's move on.
2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it, so 7 and a half percent is not an	2 3 4 5 6 7 8 9 10 11 12 13	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay. Let's move on. What's the next question, please.
2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it, so 7 and a half percent is not an unreasonable return even for these numbers	2 3 4 5 6 7 8 9 10 11 12 13 14	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay. Let's move on. What's the next question, please. BY MR. RICHMAN:
2 3 4 5 6 7 8 9 10 11 12 13 14 15	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it, so 7 and a half percent is not an unreasonable return even for these numbers that we look at here.	2 3 4 5 6 7 8 9 10 11 12 13 14 15	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay. Let's move on. What's the next question, please. BY MR. RICHMAN: Q Okay. So based on this allocation
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it, so 7 and a half percent is not an unreasonable return even for these numbers that we look at here. But I would look at something	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay. Let's move on. What's the next question, please. BY MR. RICHMAN: Q Okay. So based on this allocation of assets, are you able to opine as to
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it, so 7 and a half percent is not an unreasonable return even for these numbers that we look at here. But I would look at something considerably larger than that and based on	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay. Let's move on. What's the next question, please. BY MR. RICHMAN: Q Okay. So based on this allocation of assets, are you able to opine as to whether 6 and a half percent was in the
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it, so 7 and a half percent is not an unreasonable return even for these numbers that we look at here. But I would look at something considerably larger than that and based on higher percentage. Seven and a half percent	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay. Let's move on. What's the next question, please. BY MR. RICHMAN: Q Okay. So based on this allocation of assets, are you able to opine as to whether 6 and a half percent was in the range of reason?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it, so 7 and a half percent is not an unreasonable return even for these numbers that we look at here. But I would look at something considerably larger than that and based on higher percentage. Seven and a half percent is absolutely a reasonable assumption.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay. Let's move on. What's the next question, please. BY MR. RICHMAN: Q Okay. So based on this allocation of assets, are you able to opine as to whether 6 and a half percent was in the range of reason? A Which allocation risk?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it, so 7 and a half percent is not an unreasonable return even for these numbers that we look at here. But I would look at something considerably larger than that and based on higher percentage. Seven and a half percent is absolutely a reasonable assumption. Q And so you just testified, "And	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay. Let's move on. What's the next question, please. BY MR. RICHMAN: Q Okay. So based on this allocation of assets, are you able to opine as to whether 6 and a half percent was in the range of reason? A Which allocation risk? Q The allocation we've been fighting
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it, so 7 and a half percent is not an unreasonable return even for these numbers that we look at here. But I would look at something considerably larger than that and based on higher percentage. Seven and a half percent is absolutely a reasonable assumption. Q And so you just testified, "And even this return, even this portfolio has a	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	ARBITRATION MR. MILLER: The objection is it mischaracterizes his testimony. His testimony said that in connection with the work he did for his expert report, he made conclusions about whether 7.5 percent MR. RICHMAN: I just read his testimony. How did I mischaracterize it? He just I just simply read his testimony. ARBITRATOR IRVINGS: Okay. Let's move on. What's the next question, please. BY MR. RICHMAN: Q Okay. So based on this allocation of assets, are you able to opine as to whether 6 and a half percent was in the range of reason? A Which allocation risk? Q The allocation we've been fighting over for the last
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ARBITRATION assets at different points particularly at a year end, so I wouldn't look at this just one point in time. And my recollection from my report, this is about the lowest percentage. In fact, this looks lower than anything I recall from my report, but it was substantially higher than this in terms of equities at different points in time over the period that I looked at. And even this return, even this portfolio has a fair amount of risk in it, so 7 and a half percent is not an unreasonable return even for these numbers that we look at here. But I would look at something considerably larger than that and based on higher percentage. Seven and a half percent is absolutely a reasonable assumption. Q And so you just testified, "And even this return, even this portfolio has a fair amount of risk on it, so 7 and a half	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	ARBITRATION MR. 2	this fund as of December 31, 2012?	2	discount rate for calculating withdrawal
3	A I believe I was, but maybe I can	3	liability?
4	just check.	4	A On this particular fund?
5	Q Sure. Go ahead.	5	Q In this particular fund.
6	A Yes, I signed the Schedule MB.	6	A I do believe let's see, this was
7	Q What was the interest assumption	7	2012, so this was after the point where we
8	you used for the ongoing funding of this	8	talked about earlier today.
9	plan?	9	So I do believe I was using a lower
10		10	withdrawal liability interest rate
11	A That would be shown on 6(b) of	11	assumption.
12	Page 3 of the Schedule MB and that shows	12	Q Let's turn to an unnumbered page.
13	7.5 percent.	13	But it's a Schedule MB, Line 11, Addendum,
14	Q And that's the same interest	14	
15	assumption that Segal actuary used for the	15	it appears.
16	portfolio for the NMDU plan, correct?	16	ARBITRATOR IRVINGS: I'm sorry?
17	A Correct. Although there is a	17	What document are you looking at?
18	difference because Segal uses an expense	18	MR. RICHMAN: Same document.
19	load on top of that. This rate is net of	19	MR. MILLER: It's the page that
20	all plan expenses.	20	follows Page 24 on the Supplemental
21	So this 7.5 percent rate is truly a	21	Schedule.
22	higher rate and closer to 8 percent.	22	A The first page of Schedule MB.
23	If you are comparing apples and	23	Q No. It's the page after what we
24	apples.	24	were just looking at, the asset allocation.
25	Q And so you think it's about	25	A There may be more than one version.
23	8 percent if you put	25	Q There is more than one version.

2	Q How long did this discussion take	2	MR. RICHMAN: Okay.
3	place?	3	BY MR. RICHMAN:
4	A I don't remember. Ten minutes. I	4	Q Did the employer that was
5	don't know.	5	considering withdrawing, that was whom?
6	Q So on the basis of that discussion,	6	A UNITE HERE. All capital letters.
7	you determined that 6 percent would be the	7	UNITE HERE.
8	appropriate rate for withdrawal liability	8	Q And did they actually withdraw?
9	purposes?	9	A Not while I was working on the
10	A I determined a rate. I set it down	10	account.
11	in a memo to the trustees saying, look, this	11	Q Okay. And while when was it
12	is what you've told me. Based on this	12	that you last stopped working on the
13	information, this is how I'm changing the	13	account?
14	investment return assumption for withdrawal	14	A I think it was around July of 2013,
15	liability purposes, assuming this many	15	somewhere in that area.
16	employers withdraw and they change the mix	16	Q And in July of 2013, was there
17	to a fixed-income portfolio on a bigger	17	still a threat that UNITE HERE was going to
18	portion of the fund. And this is how I came	18	withdraw from the Fund?
19	up with the number.	19	A Very likely. I don't know, but
20	So it wasn't just a conversation.	20	they had never withdrawn their threat.
21	I put it back in writing to the trustees,	21	Let's put it that way.
22	this is what you told me, this is why I did	22	Q Okay.
23	it.	23	So in your mind that was their
24	Q Okay. I understand you did a memo.	24	threat to withdraw from the fund still
25	A Yes.	25	existed in July of 2013?

2	break. I'm not finished. But let's	2	participants in the plan, eventually the old
3	eat lunch.	3	ones would stop incurring benefits, retire,
4	(A luncheon recess was taken at	4	die off and the last benefits would be paid.
5	1:05 p.m. through 1:54 p.m.)	5	So if you are having fewer and
6	MR. MILLER: Back on the	6	fewer participants, then over time, your
7	record.	7	horizon of the plan will slowly start to
8	CONTINUED CROSS EXAMINATION BY MR. RICHMAN:	8	decline.
9	Q We have had testimony previously in	9	Q And would this affect the risks
10	this arbitration, in particular from a New	10	associated with the plan doing well or not
11	York Times witness, particularly about the	11	doing well?
12	decline in the industry in which the Fund's	12	A Yeah. I think we've discussed this
13	participants are employed.	13	earlier and it's been discussed quite a bit
14	And he had also indicated that he	14	that with less participants and less
15	did not expect that that decline was going	15 16	contributions coming in, that the risk of an
16 17	to be reversed.	17	aggressive portfolio is somewhat higher
18	And so assuming he is correct in	18	because in the event that the plan does not
19	his judgment, how would that affect the	19	do as well as anticipated, there are fewer
20	pension plan, this pension plan in this	20	bodies over which to amortize that difference.
21	suit?	21	And, likewise, if the plan does
22	A How would that affect this pension plan?	22	better than expected, there would be a lot
23	Q Yes.	23	less bodies to amortize that decline over.
24	A Well, there would be lower	24	Q When you talk about "less bodies to
25	contributions coming in presumably, unless	25	amortize," can you explain what you mean?
	controlations coming in presumatory, timess		amorezo, can you explain what you mean.
	Page 414		Page 416
1	ARBITRATION	1	ARBITRATION
2	rates were correspondingly increased.	2	A Per participant.
3	It would slightly reduce the	3	So, in other words, if you need
4	ongoing obligations to the Fund versus what	4	\$10 million you need to fund a
5	would otherwise would happen.	5	10-million-dollar liability and you've got
6	And there would be less	6	10 million lives, well, that's not a whole
7	contributions and assets. There would also	7	lot of money. Well, if you have only ten
8	be probably less liabilities in the future.	8	lives, that's only a million dollars each.
10	Q And the plan would become more	10	Q I thought I was sure before but I'm
11	mature?	11	not sure now about what you are giving an
12	A I think you would often use the word "more mature." I think the retiree or	12	opinion on. And so let me ask you: Do you have
13	inactive population relative to the active	13	an opinion on whether the assumptions used
14	population would probably increase, and that	14	to calculate The Times' withdrawal liability
15	is often called a more mature plan.	15	were unreasonable in the aggregate?
10

So now we have a little dilemma. MR. MILLER: Yes. Off the record. (Pause.) ROSANA EGAN, having been first duly sworn by Arbitrator Irvings, was examined and testified as follows: DIRECT EXAMINATION BY MR. MILLER: Q Good afternoon, Ms. Egan.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	ARBITRATION assumptions in connection with the pension plan's funding obligations? A Yes. Q And as an enrolled actuary, what type of pension plan does your practice primarily focus on? A Multiemployer defined benefit plans. Q And for how long has that been the case? A For myself? Q Yes. A Since I've been employed at the Segal Company. Or since I've been an enrolled actuary. Q And how long have you been an enrolled actuary? A Since approximately 1990. Q And what does an enrolled actuary to a multiemployer pension plan do? A That's a kind of broad question. We prepare our annual valuations of the

	Page 425		Page 427

Q And it breaks down the calculations year by year; is that right? A Yes. Q If you could turn to Page 15 of the report which is FUND-609. A Yes. Q And it provides information about a payment schedule, right? A Yes. Q And if you turn the page to 16, does it lay out the information used to calculate the payment schedule? A Yes. Contribution. Q And the payment schedule was calculated using wages; is that right? A I believe so. Q And you sent this document to the	ARBITRATION A Yes. Q And why did you request shifts/hours? A We usually request that in order determine the payment schedule. Q And what's your understanding of what shifts/hours represent? A The base units. Q Is it your understanding that shifts are the base units for this Fund? A Yes. Q Is it your understanding that hou are the base units for this Fund? A With this Fund, it's shifts. It should be based on shifts. Q Why are hours listed on this letter? A I don't know. Q You drafted the letter, right? A Yes. Q Did you ever get a response from the Fund about this letter?	to of rs

Page 506	Page 507
ARBITRATION - VOLUME III current year, correct? A Yes. Q And does it also the Actuarial Valuation Report include information that is required to be filed with the annual Form 5500? A Yes. Some of the information there is used for the 5500. Q It's incorporated into A Schedule B/MB for the 5500. Q Okay. Ms. Egan, can you turn your attention to the white binder in front of you, Exhibit 25. A Okay. Q And what is that document? A It's the actuarial valuation as of June 2011. Q And this is the Actuarial Valuation Report for the Newspaper and Mail Deliverers'-Publishers' Pension Fund, correct? A Yes. Q And did you prepare this report?	ARBITRATION - VOLUME III A Yes. Q Let me direct your attention to the page that is labeled SEGAL-000606. A Okay. I'm there. Q And this page is entitled Certificate of Actuarial Valuation. A Yes. Q And what is a Certificate of Actuarial Valuation? A It basically lays out the different liabilities and assets for the valuation of the year. Q And your name appears at the bottom of this certification; is that correct? A Yes. Q Turn to the very next page, which is essentially a table of Certificate Contents. Am I correct that the eight exhibits and the information contained in those exhibits that is listed on this next page are part of the Certificate of Actuarial Valuation? A Yes.
ARBITRATION - VOLUME III Q And the information contained in those eight exhibits in fact comprises the Certificate of Actuarial Valuation? A Yes. Q And you are in fact certifying to the accuracy of the information contained on those exhibits, correct? A Yes. Q Let's go back to the certificate page. And let me draw your attention to the last paragraph and the sentence, the second sentence which states, "To the best of my knowledge, the information supplied in this actuarial valuation is complete and accurate except as noted in Exhibit 1." Do you see that sentence? A Yes. Q Is it fair to say that you personally are certifying to the accuracy of	ARBITRATION - VOLUME III the reasonableness of the information? A We are given some information to do the numbers, and we don't audit that information but we look at it for reasonableness. So the information that goes in, we see that it's reasonable and then come up with our numbers. Q At the time you prepared this certificate in Exhibit 25, did you believe that the information contained in this certificate was accurate to the best of your knowledge? A Yes. Q Do you still believe that? A Yes. Q Now, let me direct your attention to the page that's been labeled SEGAL-000628. Are you there?
the information that's contained in this Certificate of Actuarial Valuation? A To the reasonableness of the accuracy. Q You, personally, are certifying to	Are you there? A Yes. Q Okay. And you'll see that there's a definition of "contribution rate" in the middle of that page. Are you there? Are you there? A Yes.

		1	
	Page 510		Page 511

1	ARBITRATION - VOLUME III	1	ARBITRATION - VOLUME III
2	Q And is this actuarial valuation	2	Q In fact, this description omits use
3	analogous to the two that we just examined	3	of the word "wages," doesn't it?
4 5	in terms of its overall purpose?	4	A Yes.
6	A Yes.	5 6	Q And this language does use the word
7	Q Let me direct your attention again	7	"shift," right? A "Shift rate."
8	to the final page which labeled 000760.	8	
9	And please review the description there respecting contribution rate.	9	Q That's right. "Shift rate." Do you believe that the language
10	A Okay.	10	that you previously used, "8 percent of
11	Q Did you draft this language?	11	wages," means the same thing as "8 percent
12	A I possibly could have. I don't	12	of the shift rate per shift"?
13	remember exactly who did. A couple people	13	A Yes.
14	work on the valuation, so it could have been	14	Q And why is that?
15	someone else, but I reviewed it.	15	A Because the shift rate is the wage
16	Q You did review it?	16	in this situation.
17	A Yes.	17	Q Are you aware whether employees
18	Q And you did certify to it in the	18	that are covered by this Pension Fund are
19	Certificate of Actuarial Valuation, correct?	19	compensated for holidays?
20	A Yes.	20	A I'm not sure exactly what they're
21	Q And this is not the same language	21	compensated for.
22	that was used to describe the contribution	22	Q To the extent that they were paid
23	rate in the prior valuations that we looked	23	for holidays, that would be wages for
24	at, right?	24	something other than a shift worked,
25	A Correct.	25	correct?

A Thinking it over as we were doing the valuation, it appeared it was unclear, so we thought we should make it clearer. Q Let's go back to the last page of the document and the description of contribution rate. I'd like you to focus on this revised articulation of the description. In this description, what is the contribution rate? A Eight percent of the shift rate. Q And so the words in this formulation "per shift," they represent your	ARBITRATION - VOLUME III A Yes. Q So this formulation, 8 percent of the shift rate per shift, is actually the entire contribution formula. It represents both the contribution rate and the expression of the CBUs, correct? A Yes. Q So, similarly, when the prior valuation reports use the formulation spercent of wages, the word "8 percent" represented the contribution rate and "wages" represented the base units, correct? A No. Q Why? A It was 8 percent of wages. That's how we would describe the contribution rate any time we talked about it. And everyone knew that you meant the wage rate. But that's how it was described all the time. It was the way people spoke about it. The language change was to make it
